ENTIRE ARMY AIR FORCE SENT OUT FOR LOST FLYERS

Every Aircraft On Border Joins Search For Colonel Marshall and Webber.

(Continued from Page 1)

San Miguel, Ariz., west of Nogales, Thursday—was received by Major Leo G. Heffernan, ranking officer of the aviation forces engaged in the search who landed in Tucson at 10:30 p.m. and personally interviewed men who had seen the plane.

The second—that two men in the uniform of army officers, answering the description of the missing aviators, were picked up on the highway near Tombstone, Ariz., early Thursday night and given a ride into Bisbee—was given to the searchers by O. M. Thompson, a commercial man, driver of the car in which he said he gave the officers a lift.

As a result of these late reports four of the nine airplanes, which have been stationed at Tucson, remained in Nogales last night under command of Captain R. G. Brown, while the other five returned to Tucson under personal command of Major Heffernan.

Another important development yesterday was the enlistment of land forces of the army in the hunt and the arrival in Tucson of Col. Edwin Vines, commanding troops at Fort Huachuca, to take general command of the situation.

Cavalry detachments from Fort Huachuca have started a reconnaissance of the country in the vicinity of the fort, under orders from Colonel Vines, and other forces are en route to the south of the state to assist in the search for the aviators.

A dozen army airplanes are today patrolling the air lanes in the vicinity of Mexico and Gila, Ariz., in the hope of locating the missing flyers in that wild and mountainous region.

The aviators found planes at Sonora and Medina Lake which had been abandoned on account of engine trouble. Captain Robert G. Ervine, of North Island, today expressed the belief that the missing flyers were lost on their flight, as they carried a limited supply of fuel and could not have gone a great distance.

The lost plane recalls the experience of Colonel J. A. Robertson, who was shot down over Mexico, and whose plane was found in the desert near the border.

Joy Christians Go Thirsty When Dry Agents Act

BY THE ASSOCIATED PRESS
LEASD WIRE TO TRIBUNE.
ROCHESTER, N. Y., Dec. 11.—The "Joy Christians," a new religious sect formed here with a pledge to follow the example of the Lord as "a drinker of the wine of his day," suffered a reversal today when a federal prohibition agent from headquarters in Buffalo advised their "pastor," A. Stanley Copeland, to postpone his second "communion."

The federal agent took from Copeland a bottle of beer intended for the services to have it analyzed and also a copy of the sermon which the organizer of the new sect intended to deliver. Copeland called off the service after the federal officer informed him that the law required that he prove himself the responsible head of a responsible religious organization before he would be allowed to distribute wine.

The "pastor" has been having difficulty in getting an adequate supply of liquid refreshment for his "congregation" and last Friday morning he called at police headquarters to request the authorities to give him some seized liquor for his new cult.

Detectives Wound Three in Battle

LOS ANGELES, Dec. 11.—Four negroes—two men and two women—and two detectives of the automobile club of Southern California engaged in a shot gun and pistol battle last night when, according to the officers, they saw the quartet riding in a stolen automobile. One of the negro men and both women were seriously wounded. They were arrested and taken to the receiving hospital. The other man has not been caught.

The wounded: Marquis Johnson, severe wounds in chest, not expected to recover; Virginia Hurlie, wounds in back condition serious; Louis de Vail, badly wounded but expected to recover.

The detectives said they fired to kill the negroes, and acted in self-defense.

Minister's Son Held On Bad Check Charge

Ray A. Williams was today arraigned before Police Judge Edward J. Terrell on a charge of passing a bad check. The preliminary examination was set for December 13.

Williams, who claims that his father is a prominent minister in Los Angeles, was arrested in Tucson, Ariz. He drove a motorcycle to Tucson which he had purchased from George A. Faulkner of the city. He gave Faulkner a check for \$350, which was returned from the bank marked "no funds."

VAGRANT GIVEN 30 DAYS

William Myers was sentenced today to 30 days in the city prison after he had pleaded guilty to a charge of vagrancy by begging before Police Judge Mortimer Smith. He was arrested last night with Paul Russell at Eighth and Broadway by Detectives E. F. Murphy and E. A. Yank. Russell pleaded not guilty and his trial was set for February 4.

Myers became lost while on an eastern flight and landed in the desert wastes of Lower California several years ago. Colonel Robertson finally staggered into a railway station and collapsed.

FRENCH WARTIME PREMIER APPEALS TO U. S. FARMERS

Versailles Pact Means Peace, Says Clemenceau, in Chicago Address.

CHICAGO, Dec. 11.—American farmers must see that the treaty of Versailles is enforced if they want a market for their wheat, Georges Clemenceau declared today in his final address in America.

Speaking before the American Farm Bureau, the former premier of France declared that America must have foreign markets for its crops, but will not have them if the treaty is not enforced.

"Russia, Austria, Germany and France are hungry, but can't eat," he declared. "We have no money because our friends did not do what was necessary to make Germany pay."

"We need American wheat. Only about one year in ten do we produce sufficient grain for our needs. We would like to buy from you the other nine years, of course, whether we will or not is not for me to say."

THREAT TO INSURE PEACE

"Peace in Europe will be insured if the treaty decision is enforced. If not, in the years to come there will be a great cry of 'too late, too late.'"

Clemenceau said he was going home, having carried out his mission.

"I am here on no official business," he said, "but I came on a mission for my conscience. What ever you decide, my heart is with you. Nations must make mistakes and if you make a mistake and later realize it I am sure that you will be quick in repairing it."

Clemenceau declared that France wanted none of the German territory on the left bank of the Rhine.

IS "DIRTY FARMER"

He appealed to the gathering as one farmer speaking to another, telling how he spent his youth on the farm and he was a descendant of a long line of "dirty farmers."

He declared that France would pay its war debts, but reiterated that Germany must also pay.

The hearers were greatly impressed by his description of the great damage wrought to the farming in France during the world war.

"Prosperity is coming back, though," he declared.

Woman on Trial For Auto Killing

SAN FRANCISCO, Dec. 11.—Witnesses today testified in the hearing of Mrs. Emma Hartranft, charged with manslaughter and failing to give aid to a victim, Frank Hess, whom she is said to have run and killed with her automobile.

Mike McGuire, street car motorman, said he had seen the machine in Hess and drag him 42 feet. Police Officer Walter Harrington testified that he had found Hess on the car after the crash.

Mrs. Hartranft broke down and cried during the proceedings. The case was continued until tomorrow.

simple sort. That combination which was in Kyle's effects is a six-letter affair. That means that it fits a modern safe only and a very large one at that. Why the safe here in my store, which weighs over a thousand pounds, is not even big enough for a six-letter safe.

"Regarding the furniture in the house, which I have seen, it has been called antique. Well, maybe it is, but only as far as age goes. These beds are worth about \$5 each. The wood in them is not good and their lines are very poor. I am something of an expert, for I have bought many antiques and know something of their value."

"Also the jewelry is far overvalued. I will be very much surprised if the 'iron box' discloses anything of any value. I have seen Kyle's jewelry on many occasions and it is not particularly valuable, in my opinion."

Policemen Praised In Row Over Colors

Commendation for Chief of Police James T. Dwyer and Policemen A. A. Page and Ericson for a member of the colored fire department.

The resolution, adopted by the Lieutenant Eberhart R. Leisure Post No. 999 of the Veterans of Foreign Wars and forwarded to the principals today.

The resolution follows an alleged falling out of the firemen to remove his hat when the colors passed in parade on Armistice Day. He was reprimanded with by citizens and finally forced to uncover by Police Officer Page, who was escorted by Chief Dwyer of charges of conduct unbecoming an officer preferred by the fireman.

The fireman said that he was forcibly handled by the policeman for an unintentional oversight.

Alameda Families In Need Are Listed

ALAMEDA, Dec. 11.—All residents of Alameda desiring to assist indigent families in their home town during the holiday season may obtain a list of worthy families from the Alameda Social Service Board, according to Mrs. Beulah Spurn, executive secretary.

In compiling the list the specific reason for the necessity of the affected family is given although the names of the cases are withheld from public notice.

The most pressing needs of the indigent families in the city at present, according to Mrs. Spurn, are for fuel, clothing and milk. A number of special appeals from small children asking not to be forgotten at Christmas time have been received during the last few days by the board.

Adelphian Talent Will Produce Plays

ALAMEDA, Dec. 11.—Members of the dramatic section of the Adelphian club of this city held a luncheon today in the social hall of the clubhouse on Central avenue. Mrs. A. E. Lorber, curator, and Miss May O'Keefe, dramatic coach of the section, were honor guests for the occasion.

The annual evening of entertainment will be given by the section Thursday night, when the members will appear in five one-act colonial plays. Between acts Mrs. John Henry Merrill, vice president of the club, will contribute songs. Mrs. Clarence Scott, tried is chairman of the committee in charge of the sale of tickets.

Fire Prevention in Yuletide Is Urged

ALAMEDA, Dec. 11.—An appeal to the residents of the city to assist in observing fire preventive measures during the approaching holiday season is being issued today by Walter Steinmetz, fire chief of Alameda.

Steinmetz declares that the Christmas season is full of the hazards and warns the housewife to refrain from permitting Christmas trees to remain in the house after the needles become dry and long to have no decorations near gas jets or open fire places.

Aronivici Arrested Under Motor Laws

ALAMEDA, Dec. 11.—The second city official to be arrested for violating motor vehicle laws within a week, Carol Aronivici, consultant to the city planning commission, is today booked at police station for failing to have a registration card. Aronivici was arrested yesterday by Officer W. J. Wilson. He deposited \$2 bail. Aronivici resides at 1616 Loma avenue, Berkeley.

Sleeveless Païamas. New Outdoor Garb Are Fad in London

LONDON, Dec. 9.—Sleeveless païamas and nightdresses are the latest in fashionable women's wear among the "haut ton" of Britain.

In place of sleeves the wearer adorns her arms with dainty bands of lace, and the dress is usually worn above the elbow. This accomplished, the fashionable Englishwoman is now turning her attention to an "all sudden" out-of-door costume.

Having borrowed from man his leather waistcoat and fastened it into the most fascinating of jorinks, velvety soft and of the most gorgeous hues, she is now donning sports skirts of the same material.

Not only hat and shoes but handbag and gauntlet gloves must match exactly. And to achieve this result even fur is being used as a material to be hardly recognizable.

Not only is the humble rabbit dyed blue, green and pink, according to the wearer's fancy or gown, but even the sumptuous champagne has been transformed to jade. Ermine, formerly only known as a white fur, is now taken from the little animal's summer coat, a very pretty shade of brown.

Evening nowadays all Englishwomen are clad in gold or silver, like old-time fairy princesses. Almost every material has now a metal thread interwoven, giving gorgeous and shimmering effects.

The very newest material for evening wear is a soft lemon crepe de chine, with a Japanese landscape of sea and mountains imprinted in black.

Arrest of American Explained By Japan

TOKYO, Dec. 11 (By the Associated Press).—Viscount Uchida, foreign minister, replying to Ambassador Warren's recent protest in the method of dealing with R. M. Andrews, an American who has lived in Japan for many years, says it is clear that no charge of being a spy was made against Andrews and that the allegation of being suspected of espionage was based on unfounded rumors. Andrews has been interrogated by the Japanese authorities for running his business in the vicinity of fortifications.

Andrews is said to be pleading guilty to a minor charge of a breach of navigation laws when his case is called.

Merchant of Utah Dies in Alameda

ALAMEDA, Dec. 11.—Frederick T. Schoppe, a retired merchant of Salt Lake City, died yesterday following a brief illness at the home of his son, W. E. Schoppe, 1021 Pearl street. The body will be shipped to Salt Lake City for burial.

Schoppe, who was a native of Missouri, was 73 years of age and active in Masonic circles in Salt Lake, having been a member of Mount Moriah Lodge, F. and A. M. Besides his son in Alameda, he is survived by another son, Lewis Schoppe of Santa Monica, and a daughter, Mrs. H. W. Kline.

Bazaar Is Planned In Church Parlors

The Pastors' Aid of the Union Presbyterian church will hold a bazaar tomorrow in the church parlors under the direction of Mrs. Walter Kendall, the president of the organization. Donations will be in operation at which the ladies will offer for sale fancy and household articles, dolls, notions, candy, home cooked foods and refreshments. The Christian Endeavorers will conduct a fish pond. The Junior Loyal Daughters will conduct a candy and doll booth.

Nobel Peace Prize Is Awarded to Nansen

CHRISTIANIA, Norway, Dec. 11 (By the Associated Press).—The Nobel peace prize has been presented to Dr. Fridtjof Nansen. The award was made for Dr. Nansen's work in relieving the starving populations of Russia and Asia Minor and for his endeavors to promote a brotherhood of nations.

SHOT BY WOMAN WHILE IN AUTO

San Pedro Shipping Manager Now Fighting For Life in Long Beach Hospital.

LOS ANGELES, Dec. 11.—Mrs. Lillian Moores, 27 years old, was at liberty on her own recognition today, pending the fate of Walter Bulow, alleged "deceiver," whom she shot in the presence of his wife in a love duel. Bulow, manager of the San Pedro office of the Ship Owners' Association, is charged by Mrs. Moores with having made love to her with promise of marriage.

Saturday night, she discovered him riding with a woman on the Harbor boulevard after he had failed to keep a date with her. She turned around in her coupe and chased him. He stopped.

"Who is that woman?" she asked him, leaping out of her car. "My wife," he replied.

Mrs. Bulow then took Mrs. Moores to task, she said, for "meddling with other women's husbands."

Words ensued and then, she charged, Bulow drew a revolver and fired at her four times, missing her.

She says she then drew a small revolver, which he had given her "for protection against dangerous men," and fired, wounding him seriously. He is fighting for his life in a Long Beach hospital.

"He deceived me," she said. "He told me he was single. We were supposed to be married soon and I had my trousseau ready."

Both Bulow and his wife declare that Mrs. Moores fired the first shot.

Londoners Offer \$25 for a Seat At Murder Trial

LONDON, Dec. 11.—When the old Bailey court opened today a long line of cold and weary men and women sought to gain admission for the final stage of the sensational murder trial of Mrs. Edith Thompson and Frederick Bywaters, who are charged with killing Mrs. Thompson's husband, Percy Thompson.

Bywaters is alleged to have stabbed Thompson while the latter was escorting his wife home from the theater.

The defendant claimed self defense but the prosecution has produced a mass of correspondence between Mrs. Thompson and himself in an effort to prove that they planned the murder.

Seats were at a premium and several persons waiting in line offered five pounds (normally about \$25) for favorable places. The court accommodates less than fifty spectators.

CLUBWOMAN IS HOME FROM EAST

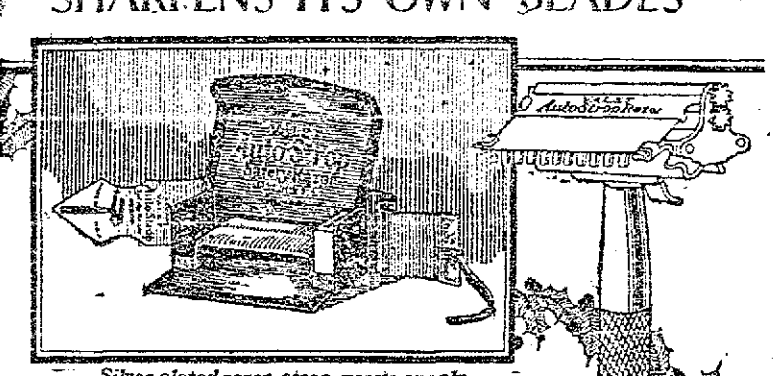

ALAMEDA, Dec. 11.—Mrs. Henrietta T. Speddy, former prominent club woman in the Bay region, who arrived recently from her home in New York state after a six years' absence, will remain in California for the next two weeks before returning to the Atlantic coast.

Mrs. Speddy, whose home for many years was in Cedar street, Alameda, was considered a leading factor in securing suffrage for women. She was one of the charter members of the Copa De Oro Chapter of Alameda, Daughters of the Revolution, as well as being active in many political clubs throughout the entire Bay region.

In speaking of the activities of club women in the eastern political field, Mrs. Speddy declares the most outstanding features along this line of work is the fact that the entire feminine vote is solid in favor of prohibition.

Come out of The Kitchen!

you waste too much time cooking

You may think that it is necessary to spend several hours a day in the kitchen preparing meals, especially dinner.

But it is only because women have been doing so for years and years.

As a matter of fact, it is no more necessary to do this than it is to sweep with a broom or rub clothes on a washboard.

Come out of the kitchen!

Get away from the kitchen slavery imposed by years of custom.

Turn your cooking duties over to the Westgate Automatic Electric Cooking Cabinet and find yourself free.

It's no dream. It's a practical fact, as thousands of women have learned, and are learning every day.

Get dinner ready before you clean up the kitchen in the morning, put it in the West-

gate, set the alarm and turn the switch. Then forget dinner—meet hubby at the front door at six o'clock in the evening if you want, and you can serve a perfect, hot dinner before he can finish the headlines of the evening paper.

And if you doubt it, just challenge us. We will put a Westgate in your home on a free demonstration without any obligation on your part whatever, and let you prove it for yourself.

It's not a fireless cooker. It maintains an even heat throughout the entire cooking operation. The patented automatic control turns

proper degree, then turns it on again at the right time to maintain the correct temperature, so food can't burn or scorch; can't cool off and get stale and soggy if you're late.

DUCK HUNTERS IN NARROW ESCAPE ON THE ESTUARY

San Francisco Men. Rescued
By Bridge-Tender After
Boat Overturned.

Their craft overturned in the
fey water of the Oakland estuary,
two duck hunters, H. G. Grolmund
and H. E. Cuka, both of San Fran-
cisco, struggled for nearly an hour
yesterday before they were res-
cued by Lee Demier, operator of
the High street bridge.

Hearing cries for help from be-
neath the bridge, Demier made
his way to the foundation work
and found both men holding onto
their overturned rowboat. A strong
tide was running and threatened
to sweep the men out into the open
water.

Demier extended a pike and
pulled both men to the bridge. As
they were chilled through from ex-
posure, Demier took them to his
quarters where they soon recov-

SHASTA CLIMB

The Tribune Expedition Has
Plans for New Year's Day
Trip Up Mountain.

That The TRIBUNE climb of Mt.
Shasta, on New Year's day, will de-
pend on packing of supplies on
men's backs is the opinion ex-
pressed by A. J. Barr of Sisson,
veteran packer whose horse trains
transported the materials taken
from Sisson to Horse Camp for
construction of Shasta Alpine
Lodge during the past summer and
fall.

In response to a letter from
Charles Warner, mountaineer and
Sierra Club member who will lead
the TRIBUNE trip, Barr states
that recent storms have so in-
creased the depth of snow as to
make the trail from Sisson to-
ward Mt. Shasta impassable for
horses, thus necessitating entire
dependence on the efforts of men
on snowshoes to carry all supplies
on The TRIBUNE expedition on
their backs.

Arrangements are being made
with men at Sisson to undertake
the work of packing and it may be
necessary for Warner to go ahead
of the rest of the party, making
two or three extra trips from Sisson
to Horse Camp to get the sur-
plus supplies assembled and ar-
ranged for the climb. Horse Camp
is eight miles from Sisson and at
an altitude of 8000 feet. The al-
titude of Sisson is 3555 feet. It is
thought that the work of packing
supplies can be accomplished with-
in three days by two capable and
experienced men.

LAST OF BUNKO GANG ARRESTED

Search for the fourth of the
quartet of bunco men accused of
stealing \$100,000 from the Bank of
England in Los Angeles, San Fran-
cisco and Oakland with coun-
terfeit Bank of England notes, ended
today in the arrest of Count
John Drososovitch, a Russian, in
Los Angeles, according to an
announcement by secret service
operatives here.

According to the federal officers
the four men have been flooding
the three cities with counterfeit
Bank of England notes.

Attention was directed to the
fraud on November 14, when Ivan
Glavdanovic, a former Los An-
geles bank clerk, was arrested in
San Francisco, after defrauding six
San Francisco banks, three Oak-
land banks and a number of ex-
press companies and brokers of
\$8000 within a few hours.

The matter was turned over to
the secret service operatives and
Oscar A. Simon, commercial pho-
tographer of Los Angeles, and
Nicholas Popovich were trailed
across the country and arrested in
New York. They were charged
with complicity in a plot to de-
fraud and are now in jail in Los
Angeles.

Prison Bandmaster Is Denied Parole

Damasius Gallus, former Oak-
land musical director, serving a
life sentence in San Quentin where
he is bandmaster, for the slaying
of John Hottelkiss more than seven
years ago in a dispute over money,
was denied parole by the state
prison board. It was learned today.

It was ruled that Gallus must
not apply again for ten years.
Nine other men who are "lifers"
at the penitentiary, were turned
down by the prison board, while
five convicts serving life terms,
were paroled. A total of fifty ap-
plied to the board for parole.

SENTENCE SLASH IS COURT FOR HARRY S. NEW, JR.

HARRY S. NEW, JR.

**Mother and Sister of Man
Convicted of Sweetheart's
Murder File Plea.**

LOS ANGELES, Dec. 11.—Complaint of sentence for Harry S. New Jr., reputed son of U. S. Senator Harry S. New of Indiana, who was convicted of the murder of his sweetheart, Freda Lesser, nearly three years ago, has been asked by Mrs. Edy Burger, his mother, and Miss Edna Clancy, his sister.

The plea for commutation, which has been forwarded to Governor Stephens, was based on the following grounds:

First, that New was not guilty of the crime, as he declared that Freda committed suicide; second, that at the time of Freda's death New was insane, and, third, that further confinement will seriously injure his health. The plea was forwarded by Attorney Walter J. Little.

Accompanying the petition was a statement of Warden Johnson of San Quentin saying that New was a "model prisoner" and that his record is clear. Johnson stated that although New has actually served only two years and ten months, the credits he has earned for good conduct entitled him to a record of having served four years.

A physician's affidavit was also attached, declaring that since his incarceration New has contracted lung trouble.

New was given a second-degree murder sentence of from ten years to life.

The application is endeavoring to have the governor commute this to five years, which would shortly make him eligible for probation.

An affidavit by New's sister declared that he is now willing to tell for the first time the real story of Freda's death. New did not take the stand at his trial. She declares that Harry refused to testify "in order to protect the girl's good name." She says that Harry told her that on the night of the shooting the lonely young Freda confessed to him that she had been receiving intimate attentions from other men. He declared he took her to his home and told her mother. She then drew a gun from the side pocket of the machine and shot herself.

The state claimed that New killed the girl when she revealed to him that she was about to become a mother.

**Editor Acquitted
On Murder Charge**

DURANGO, Colo., Dec. 11.—Rud S. Day, editor of the Durango Democrat, was found not guilty of the charge of murder for which he was tried in connection with the death of William L. Wood, city editor of the Durango Herald, last April. The verdict was returned at 3 o'clock this morning after 13 ballots had been taken.

Carnival to Be Given by Art Students

The California School of Fine Arts will give a Venetian Carnival on Saturday night at the school at Mason and California streets, San Francisco, that is the big social episode of the student year.

The spirit of the school is manifested in the verve and intensity of interest in the details of the links at the end of each school year—one of the student's characteristic affairs that have persisted in San Francisco from the days before the fire.

In choosing the Venetian period for the 1922 links the students had a mind the liberty of costume permitted in the Italian era.

Among the students in the school are many Eastbay girls who are accomplishing interesting things—prominent among them being the school's first C. graduates who have returned from a post-graduate period at the school on the hill.

The links will be preceded by a parent, planned and worked out by the students, as in former years.

BAZAAR GIVEN
BY SUB-DEB SET.

The sub-deb set, who are at home for the holidays, are planning a Christmas bazaar for Saturday, December 16. Superintending the annual affair are the student body of the Horton School at Perkins and Palm streets, where the fair will be held. Alumni of the school and parents of the active students are lending their efforts toward the success of the day, the proceeds from which are to be given over to the Christmas charities and athletic funds.

At the head of the cake booth, will preside Miss Cornelia Harrington and Miss Lois Hodges. Jams and jellies will be sold by Miss Jane Armstrong and Miss Betty Best. Miss Margaret Mitchell and Miss Jean Mitchell have the candy section while the fancywork booth will be under Miss Carolyn Hubbard and Miss Katherine Hawley.

Balls and toys, a special feature, will be sold by Miss Edna Sherman and Miss Virginia Pearson.

Miss Loretta Palamontain with a coterie of girls will offer the grab bag as an attraction.

The Messrs. Barbara Olney and Ruth Richardson are to be in charge of the tea room one of the leading features of the bazaar.

Many of the workers are members of the Junior Auxiliary of the Baby Hospital Association.

Miss Beatrice Soole is back from the east again at the home of Dr. and Mrs. H. S. Kegan in this city.

Mr. and Mrs. Kenneth Bosworth O'Brien will be up from Sonoma in the holiday season to visit the Vernon Waldron home.

Two days before Christmas Mrs. Edward Glade and her sons are to leave for Lindsay where they will spend Christmas with Mrs. Glade's sister, Mrs. Christine Kraul.

Mr. and Mrs. Christman Kraul, The Krauls came from Norway, and are now in the orange grove lands in Southern California.

Christmas is to be passed by Miss Mary Louise Wilson and Miss Helen Murphy of the class of '22 University of California in Honolulu where they are teaching on the island of Maui.

the younger girls to be away over the holidays. She will go to Valley Springs to be the guest of her sister, Mrs. R. F. Carter.

In St. Francis de Sales parish house, the wedding of Miss Loretta Rose Coyle and Leon Ralph Hess was solemnized December 2 by Rev. F. A. Morrison, pastor. Miss Marie Coyle was bridesmaid for her sister. The couple left immediately for the south on their honeymoon.

The bride was graduated from the Holy Names convent and is the daughter of Mrs. Mary Coyle. Hess is a son of R. Hess of Eurekafield and a graduate of Stanford University. He is connected with a San Francisco concern. The future home of the couple will be in that city.

WEDDING TO BE
IN BERKELEY.

Eastbay members of the Delta Delta Delta sorority are interested in the marriage of Miss Louise Bonner and William Clifford Reese, which is to take place December 28 at 9 o'clock in St. John's Presbyterian church, Berkeley. Later a reception is to be held at the home of the bride's aunt, Mrs. John Dornin of Eureka Place.

Miss Bonner will have as her maid of honor, her sister, Miss Doris Bonner. There will be four bridesmaids, all sorority sisters of the bride—Miss Ruth McLaughlin, Miss Ruth Symant, Miss Mildred Elam and Miss Anne Davis.

Miss Bonner has been staying in Mill Valley all of this season, where she is a member of the Tamalpais club and a teacher at the school.

Her father, Mr. and Mrs. C. G. Bonner of Fresno and will return to her home the latter part of this week.

Miss Kathryn Armstrong, daughter of Mrs. S. V. Armstrong of Vernon Heights, is visiting in Seattle, where she is being feted by the local W. C. T. U. group. She was hostess at bridge at her home in December 6 for the visitor, and

HEARING IN S. P. MERCER PAGE IN MEMORIAL CASE IN

ITS FINAL STAGE

**Direct Testimony Completed,
But Rebuttal Witnesses
Are to Be Heard.**

BY THE ASSOCIATED PRESS
LEAD BY WIRE TO TRIBUNE.

WASHINGTON, Dec. 11.—Hearing before the Interstate Commerce Commission on the application of the Southern Pacific to retain control of the Central Pacific entered the final stage today when introduction of direct testimony was completed.

Attorneys representing the various interests concerned, however, arranged to call new witnesses in rebuttal. In addition a tentative agreement was reached for extensive oral argument before the commission after the briefs in the case have been completed and filed.

F. N. Finch, general superintendent of the Oregon-Washington Railway and Navigation Company was recalled today for cross-examination by the Southern Pacific representatives.

At considerable length, Finch was questioned as to his assertions that joint use of railroad facilities in the northwest on any extensive scale had proved practical, efficient and satisfactory to the public.

Finch was originally called by the Union Pacific which is opposing the Southern Pacific's attempt to retain control of the Central Pacific, despite the Supreme Court's separation order.

By JAMES T. ROBERT,
(United Press Staff Correspondent.)

WASHINGTON, Dec. 11.—The hearing in the Southern Pacific Central Pacific merger case before the Interstate Commerce Commission, it is expected, will close tomorrow.

The Southern Pacific intends to place about twenty rebuttal witnesses on the stand. A. H. Wood, Southern Pacific counsel, again made efforts to expedite action on the case. He urged that arguments be started immediately upon conclusion of the hearings and further suggested that briefs be filed by the two roads simultaneously, with no answering briefs later.

H. A. Scandrett, Union Pacific counsel, took exception to the proposal, declaring that he desired as much time as possible, following submission of the Southern Pacific brief, to prepare his own arguments.

Commissioner Potter, presiding, advised counsel for the two carriers that he would take the matter of further procedure up with the other commissioners and make known their decision tomorrow.

He declared that he realized "the extreme importance of the case" and indicated that the other commissioners had kept close watch on all developments to date.

The hearings just closing are believed here to have established a record in the matter of length and detail. Four thousand pages of testimony will have been completed by the time hearings close tomorrow, it is estimated.

Saturday afternoon Mrs. Walter McEwen Thompson entertained at a similar affair. Miss Armstrong was hostess at bridge at her home in December 6 for the visitor, and

Miss Kathryn Armstrong, daughter of Mrs. S. V. Armstrong of Vernon Heights, is visiting in Seattle, where she is being feted by the local W. C. T. U. group. She was hostess at bridge at her home in December 6 for the visitor, and

100 Acres of Spinach**

SAN LEANDRO, Dec. 11.—There are 100 acres being planted in spinach for one local canning corporation by the agriculturists of this city, according to Tim Sullivan, farmer and orchardist of San Leandro. In addition to that amount, demands for the product have been made for a second company located here, together with outside orders for the crop.

That soil and moisture conditions here have never appeared to better advantage during the past five years is the statement of Sullivan.

**Building Activities
Set Month's Record**

SAN LEANDRO, Dec. 11.—Increased building activity is noted in the city. Permits granted totaled \$22,840, of which amount approximately \$2000 was for dwellings, and the remainder for industrial structures, such as mill sheds and garages.

Corresponding to Rowles' report and statements is an announcement by W. Shannon, proprietor of a lumber yard here, that activities have reached a point where the demand for lumber with which to carry on construction cannot be met, resulting in assistance sought from the yards of Oakland and San Francisco.

How Do You Feel Today?

In the majority of cases, constipation is not due to disease, but the faulty habits of diet, exercise, etc.

The administration of laxatives or cathartics of any kind will aggravate the condition. The muscular walls of the bowel will fail to contract as they do in a normal person and will depend upon the daily laxative or cathartic for help.

When constipation has existed for a long period of time, the individual is very apt to consider the condition as incurable or as an inherited defect and will fail to make a patient effort directed towards a cure.

Early, an individual will become suddenly and obstinately constipated when there has been no change in diet or habits to account for the same. A physician's help is then necessary and a painstaking physical examination will generally reveal the cause.

In general, the following program will cure the average case of constipation. Perseverance and adherence to every detail are necessary.

Japanese Exports Exceed Imports

TOKYO, Dec. 11.—Japan's foreign trade during October amounted to 161,481,000 yen and imports 105,606,000 yen, showing an excess of exports over imports by 55,875,000 yen, according to the finance office. Compared with the trade of the corresponding period last year it shows an increase of 50,324,000 yen in the exports and a decrease of 24,564,000 yen in the imports. The increase of the export of silk contributed to this condition. The excess of export trade over import amounting to more than fifty-five million yen, is a record since October, 1918.

Washing Won't Rid Head of Dandruff

The only sure way to get rid of dandruff is to destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning, most if not all, of your dandruff will be gone and three or four more applications will completely destroy it, and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

**The most thoughtful gift
of all—a hint to
husbands**

Can you think of anything that would be more appreciated than relief from wash-day drudgery?

Even the most thoughtful hint to the most tiring of all household tasks, particularly disagreeable at this time of the year, for it means cold, unpleasant weather to contend with—unwise exposure to draughts. Or there is the continual bother and supervision of the laundress, and the worry as to whether she will actually "show up."

In many of the homes of this city the laundry work is now turned over to us. The family bundle is returned promptly, sweetly clean, with all the heavier pieces beautifully ironed and only a few personal things left to be finished at home.

Or, for a slight additional charge, everything is daintily finished—ready to wear or put away.

Call us up and we'll gladly explain further this truly thoughtful gift. Better still, have our representative call for your bundle this week.

VETERANS' BODY SHOWS 29 PCT. GAIN FOR YEAR

Men Who Served in Foreign Wars Initiate Large Class At Ceremonial.

An increase of 25 per cent in the membership of the Veterans of Foreign Wars has been recorded in this state in the last twelve months, and fourteen new posts of the organization are to be established here within the next few months, according to reports made at the annual assemblage of the order in Seattle's hall on Washington street.

Initiation of a large number of local veterans were effected during the meeting Saturday night, which was attended by representatives of the organization from all over the state. Those initiated were:

Charles Connolly, E. A. Rogers, G. A. Gilbert, J. Longham, M. O'Brien, M. Serpa, I. M. Shimkowsky, W. G. Russell, H. J. Rittman, W. J. Demaree, G. L. DeCamp, D. K. Baird, J. D. Berry, James Bowens, Major Joseph A. Rogers, U. S. A.; W. A. Fugitt, W. A. Grime, Henry Lorenze, F. E. Washburn, B. Lenhart, L. E. Olson, W. C. Finch, E. W. Brockert, Otto Hass, M. Morgan, E. E. Longmire and R. W. Bowles.

The meeting was opened by the officers of Colonel John Jacob Astor post, the pioneer post of the organization in the Eastbay, who then turned it over to the degree team of Lieutenant Landsdale Post of Sacramento for the initiation work.

C. S. Hogan, commander of the Sacramento post, conducted the initiation ceremonies.

Within the past few months new posts have been established at Hayward, Palo Alto, Las Vegas, Fallon, Nev., and Oakland. New posts have been approved and are soon to be formed at Livermore, Santa Barbara, Los Angeles, Berkeley, Oakland, Santa Rosa, Chico, Auburn, Fullerton, Red Bluff, San Pedro, Sacramento, Eureka, Merced and San Francisco.

The state officers who attended the meeting and initiation included the following:

Don B. Scherle, Oakland, State commander; Henry G. Leftman, Berkeley; Oswald Blakeley, Sacramento; Henry M. Vevitt, San Francisco; Eugene K. Sturgis, Oakland; H. P. Walls, Modesto; D. M. Maclean, Modesto; L. J. Glynvoolin, San Francisco; John Smith, C. R. Armour, Alameda; C. G. Cassities, San Francisco; A. J. McGarry, Oakland; Jack Hansen, San Francisco; C. S. Hogan, San Francisco; and Elton C. Parker, Oakland.

Salesman Dies When Wind Blows Out Gas

SAN FRANCISCO, Dec. 11.—A. A. Damon, 65, salesman, of Renton, Wash., was found dead in a rooming house at 612 Natoma street yesterday. He was fully dressed and was sitting in a chair. The gas is believed to have been blown out by the wind, causing Damon's asphyxiation. He had made preparations to go to Los Angeles yesterday. His suitcase was beside him when he was found by the proprietor of the rooming house.

BRIDGE GIVEN AWAY COLLECTS MANY FORTUNES

Old Susquehanna Structure Finally Sold to State For \$385,000.

BALTIMORE, Dec. 9.—Twelve years ago, the Pennsylvania railroad gave away an old bridge over the Susquehanna river at Havre de Grace to private interests; the building of a new bridge had made it, apparently, worthless. Automobiles, ever since, have been crossing the structure in increasing numbers, and the men who got the bridge for nothing in 1910 recently sold it to the State of Maryland for \$385,000. And, in the 12 years it was in their possession, they pocketed \$370,000 in dividends; all in toll charges collected from motor cars.

When the new bridge made the old one of doubtful use, the railroad company offered it first to the State and then to the county, without success. If no one accepted it, the company was confronted with the necessity of removing it, which would have been very expensive. So finally the company changed it from a railroad bridge to a highway bridge, and considered it lucky in finding a group of Maryland men who consented to accept the structure, which originally had cost \$2,000,000, as a gift.

The recipients put up \$700 to organize a company. Last year the net returns from the bridge were \$65,000. The State will continue to collect tolls until 1933, by which date it estimates the proceeds will retire the bonds loaned against the purchase price of \$385,000.

WINNING RACING AUTOS DISPLAYED

The winning Durant special racing car that startled the world yesterday when it won the new hills speedway a week ago Sunday are on display in the salesrooms of Charles H. Burman, Star car dealer here, in his salesrooms on Broadway.

Four of the races were shown yesterday when a constant throng was looking them over all day long. There are still two of the cars on the floor, with all the marks of the wonderful race.

The racing cars were shipped from Los Angeles and were placed on display at Burman's salesrooms soon after. They have been attracting throngs for the past two days and many have come from the surrounding cities to see the racing machines capable of turning 120 miles per hour, and they look small enough to be picked up by a good sized man.

The records established by the cars in the south are remarkable in more ways than one. Captain of the team is Jimmy Murphy, champion of the speedways for 1922, and one of the most famous racing drivers in the world. Murphy is the youngest who rose to fame almost overnight. Earl Cooper, who won in second in the Murphy in the recent race, has been in the game since the days of dirt track contests. Last year he staged a sensational comeback by winning the Raisin day race in Fresno. Then he quit the track for the business world and was induced to join the Durant team recently. He came in second in the race, only a second behind Murphy, who established a new world's record for board tracks.

Family United For First Time In 25 Years

BERKELEY, Dec. 11.—To have all of her children under the same roof with her for the first time in 25 years—this was the joy experienced by Mrs. Caroline Anderson of Berkeley this week.

It took 25,000 miles of travel to ship and sail to being about the family reunion. The home of Mrs. Anderson's eldest son, Nestor Anderson, chief boatswain in the U. S. Navy, at 2831 Ward street, was the scene of the gathering of brothers and sisters and their joyful mother.

Mrs. Anderson herself recently arrived from Finland and divides her time between the home of her son in Berkeley and those of other sons.

Nestor Anderson, who has served for twenty years in Uncle Sam's navy, was the first to leave the family' home in the "old country." Other brothers followed. A sister, Lydia, now 24 years old, was born after Nestor Anderson left home and it was not until a comparatively short time before the reunion that she and her brother met for the first time.

To make the family circle complete, Hjalmar Anderson, a Portland business man, came down from the north, and David Anderson traveled from Hancock, Michigan. Nestor Anderson returned home from nineteen months spent in Chinese waters to be present at the family party.

The other members of the family are Edward Anderson of Daly City and Lydia Anderson, the only daughter of the household, who is a nurse in Oakland. Also sharing in the reunion were two children of Edward Anderson and two children of Nestor Anderson as well as the wives of the brothers.

Labor Leaders Oppose Ship Subsidy Bill

WASHINGTON, Dec. 11.—Arguments of twelve labor union officials, either heads of international craft organizations or of State Federations, opposing enactment of the administration shipping bill, have been made public by the American Federation of Labor.

G. W. Perkins, president of the Cigar Makers' said the government aid plan was "economically and financially unsound and perniciously vicious."

E. William Weeks, as secretary-treasurer of the Brotherhood of Railway Carmen, said the "very anxiety shown in forcing through the bill is evidence that something is contemplated at variance with the wishes of the people."

"I have found 11 classes as a unit who are opposed to the passage of this bill," Daniel J. Tobin of the Teamsters' and Chauffeurs' organization declared.

FORMER TEACHER IN SCHOOLS DIES

D. R. Augsburg, formerly a supervisor of drawing in the Oakland public schools, died suddenly yesterday while attending service in the Second Church of Christ, Scientist, Thirty-fourth and Elm streets. The services were suspended. Death was due to a sudden attack of heart trouble. Augsburg, whose home is at 4295 Gilbert street, is survived by a widow, Mrs. Edna K. Augsburg, and two children, Helen Augsburg and Paul Augsburg.

Born in New York, Augsburg was 62 years old. He has been director of drawing in the State Teachers' college in San Francisco for several years, assuming the position upon his withdrawal from the local school department. He was the author of several textbooks on drawing.

"Pardon me, didn't you come from Squeak Center, Missouri?" That's where I come from, mister, and if I ever go back I'll come from there again."

PITTSBURGH AND STANFORD IN TRAINING FOR EAST VS. WEST CONTEST ON DECEMBER 30

ANDY KERR'S LINE WILL HAVE EDGE ON PANTHER FORWARDS

Tiny Hewitt Outstanding Ground Gainer of Pittsburgh Squad; Warner's Backs Are All Heavy Men

By TOM IRWIN.

STANFORD UNIVERSITY, Dec. 11.—A heavy Stanford line against a light Pitt line and a heavy Pitt backfield against a light set of backs for Stanford sums up the departmental strength situation for the Card-Pitt game in Stanford stadium on December 30.

In natural ability and physical qualifications the Panthers have it all over the Cards in the backfield. This man Hewitt is just the guy Andy Kerr has been wanting all season. He's got him now, but he's on the other side. Big, weighing 200 pounds, fast and full of fight, the Pitt full has been one of the outstanding groundgainers on the Eastern gridiron. He has been the threat that has kept the forwards of Pitt's opposition this year lined up to shoulder to shoulder, leaving Anderson and Flanagan to pass and to skirt the ends.

And when the defense has loosened, in shoots Hewitt for a substantial gain. He will be a pretty tough proposition for Tiny Thornhill's line, but the Card line coach knows enough of Hewitt's tactics to be able to build up a strong defense for him.

Captain Holleran Will Be in Lineup

Tommy Holleran, captain and centerback, although he has been out since the Lafayette game, will play against the Cards and is expected to be one of the mainstays in the Pitt offense. He is heavier than any man in the Card backfield and is possessed of unusual speed.

Schuler, substitute quarter, who has played in Holleran's place all season, is probably as good in most ways and more experienced than any man except Art Wilcox back of the Stanford line. Coleman, who is Hewitt's reserve, has speed, to throw away, but doesn't have so many tricks to pull in the open field, and is not so great a defensive player.

Getting down to the comparative size of the Stanford and Pittsburgh lines, the observer finds about a five pound per man advantage in favor of Kerr's men. Downer at center weighs 175 pounds, while De Groot weighs 240. But this man Downer is not only a center, but has played at guard, tackle, and fullback. He is a sure passer at center, a villain on offense, a shifty, wide-awake defensive player, and something of a field general. He has an unusual ability to see plays, according to reports from opposing camps.

Panthers Possess Big Pair of Tackles

Simpson and Gourley are both heavy tackles, weighing about 190 pounds each. They are probably on a par with the Stanford tackles for ability, although they outweigh them nearly eight pounds each.

Clark and Smith are quite much heavier guards as far as weight goes. They have played remarkable defensive games all season. The Stanford guards outweigh the Pitt men fully six pounds.

As to the line, the Cards are about equal as to weight. Williams and Jordan, together with Sauer, have made a good record this year, particularly "Big" Williams. They are more experienced, have played for at least two seasons under Port Warner and may be expected to show more judgment on the playing field than Mertz, Janssen, Dole and Thomas. Janssen is through with football for this season. Had he remained with the Card squad until Christmas, it is likely that he would have been a valuable addition to the team.

Since Thanksgiving Day, Stanford has had the edge and will continue to increase that edge so far as weight is concerned. The Cards are in a position to make a heavy investment on frozen ground and are in general having a difficult time trying to remain at top-season form. No man can tackle or in fact play in any department of the game so well when he is in constant danger of injury from flinty footing as when he is tumbling about on a soft turf. Pitt's improvement, if he shows any, will not be marked.

Stanford, on the other hand, will continue to get better until the last minute of practice. They may train and without much danger of injury except by accident in practice scrimmage. And when to this advantage is added that of playing a team that takes a trip across the United States, Stanford's chances look pretty good to the average western fan. It's a close and hard fought game that the fans want, and Kerr and Thornhill are expected to furnish just that.

FOOTBALL FACTS worth knowing by SOL METZGER

Q. In a recent game, team was forced to punt from behind goal-line. The pass from center was bad and punter had to try to run ball out. He was downed on the goal-line and ball was exactly in middle of line. As front end of line was in field of play, should I not have ruled it a first down instead of a safety, as stake marking first down would have been in field of play?

A. You were absolutely right in your decision in ruling it a safety. The definition of a safety says, "A safety is made when the ball in possession of a team is declared dead by the referee any part of it being on, above, or behind goal-line, provided that the ball in possession of the team which caused it to go over the goal-line came from a player on the team defending the goal." In any football rules puzzle you, write Sol Metzger, care of our Sporting Editor, who will promptly return an answer. He'll give you a quick and correct decision.

Pitt Quarterback CAPTAIN TOM HOLLERAN, Pittsburgh University leader, who has been out of the game on injuries practically the entire season, will be in the line-up when Glenn Warner's Panthers take the field against Stanford December 30th. Holleran at quarter is one of the mainstays of the Pitt machine and one of the brilliant backfield stars of the east.

Europe Not To Take All Olympic Games

LAUSANNE, Dec. 11.—Baron Pierre de Coubertin, founder of the Olympic games and president of the international Olympic committee which has its headquarters in Lausanne, on the occasion of a reception he gave in honor of the delegates to the Near East peace conference, made an important statement with reference to the future of Olympic games in the United States and the co-operation of Germans in the games. The reception was attended by members of all the delegations to the peace conference.

Baron De Coubertin, as president of the international Olympic committee, said he did not believe Europe had the right any longer to monopolize the Olympic games.

"There is something astounding in the way we on this side constantly ask the Americans to come to us, without facing the possibility of ever going to them," he declared. "It will be the international Olympic committee's duty to make the Olympics henceforth a much more American affair than ever before. We must think of our numerous friends and followers in far eastern lands. South American and African interests have to be taken into consideration.

"Such a movement cannot be governed on a single-centered plan."

STANIS CLUB IMPROVEMENTS. VALLEJO, Dec. 11.—The Vallejo Park Tennis Club has started a campaign to secure another tennis court for Vallejo. H. H. DuBois is president of the Park Club and he is to be assisted by the other members in securing the necessary money for the court.

Bruins Will Have Better Grid Schedule

California Has Three Home Games in 1923; Conference Gives Out List.

SEATTLE, Wash., Dec. 11.—The assembled delegates of the colleges of the Pacific Coast Conference drafted the 1923 football schedule for the eleven of the West here this afternoon. California, Washington, Oregon, Idaho, Washington State College and the Oregon Agricultural College scheduling five conference games while Stanford and the University of Southern California each drew four games.

The University of Southern California will make its first appearance in the northwest next year when they meet the University of Washington at Seattle on October 29 in the opening conference game for each of the institutions.

The conference season opens October 19 at Pullman with Idaho and Washington State meeting. Idaho will invade the north next year to meet Stanford at Palo Alto on November 17, the week before the annual "big game" of Stanford with California. Idaho has tentatively scheduled a game at Los Angeles with U. S. C. for the following Saturday, November 24.

Games arranged for other than Pacific Coast Conference teams follow:

September 29, Oregon at Salem; October 6, Washington at Seattle; October 13, Oregon at Eugene; October 20, Washington at Tacoma; November 2, Pacific at Salem; November 9, Washington at Pullman; November 16, Oregon at Eugene; November 23, Washington at Tacoma; November 30, Pacific at Salem.

WISCONSIN TO HAVE New Coach in 1923. MILWAUKEE, Wis., Dec. 11.—John R. Richards, for five years head coach of the University of Wisconsin football team, will not direct the gridiron of the Badgers in 1923, it was announced today. The big coach who, though never fortunate enough to win the conference championship, has kept the Cardinal colors near the top of the Big Ten list ever since he took charge of the team in 1917. He will go to California and practice law. He will probably establish offices in Los Angeles.

Before coming to Wisconsin, Richards for six years directed the football coaching of the Colorado College eleven at Colorado Springs.

BASKETBALL.

VALLEJO, Dec. 11.—The Red Men will begin the basketball season next Wednesday. The Redskins are to meet the Highlanders, former players at the Vallejo high school.

Neps 2, Virtus 1. Sons of St. George 1, A. O. F. 0. The Nepes retained their lead in the City Soccer Football League yesterday in spite of inclement weather which made the going difficult for the kickers. Defeating the Virtus Club by a score of 2 to 1 at Washington Park, Tacoma.

The Neps have but a slim hold on first place, having one point less than the Sons of St. George, runners up. The Sons put in a busy day yesterday, defeating the Golden Gate Merchants, handing the youngsters a 5 to 0 shutout.

The Rangers had greater difficulty in disposing of the Ancient Order of Foresters than had been anticipated, barely posting out the lodge eleven by a score of 1 to 0.

Gonzaga to Play Game on Christmas Day

West Virginia Turned Down by Oregon; Coach Dorais' Team Accepts.

By A. D. TRACY. United Press Staff Correspondent. Three mid-winter games to be played the last of this month will go a long way towards answering the old question of whether the Pacific Coast Conference exists at all.

The third of these inter-sectional matches was finally arranged today when Gonzaga college of Spokane, Wash., known as "The Notre Dame of the West," was signed to meet West Virginia at San Diego, Cal., on Christmas Day.

The Pasadena game will be the first of the series. Gonzaga and Penn State will be the last.

Pittsburgh and Stanford play December 20 at the Stanford University stadium.

Stanford is expected to meet West Virginia at Seattle on December 27. The University of Oregon has refused to permit the University of Oregon to play the game at Eugene.

It is the same agreement which has caused Stanford to be excluded from the conference for scheduling the game with Pittsburgh with the result that Stanford has offered its resignation from the conference.

Stanford State College is the only college team which has beaten Gonzaga this season. Gonzaga has defeated Montana and Idaho. Not being a member of the coast conference the Spokane team has not met California, Stanford or the University of Southern California.

Gus Dorais, Gonzaga coach, has built his team mainly around Stockton, halfback, one of the hardest punt averages in the country this season and whom Coach Andy Smith of California believes "is the best in the west."

Gonzaga now is in training for the game at San Diego and will leave for the south December 13.

Penn State Is Hopeful Of Victory

Nittany Lions Training Hard For Game With Trojans On New Year's.

STATE COLLEGE, Pa., Dec. 11.—For the first time in history, New Beaver Field has been the scene of variety football practice after Thanksgiving this fall, for the Penn State gridgers are working out three days a week in preparation for the big inter-sectional game at Pasadena on New Year's Day.

Although a post-season game with the University of Washington was played last year, the team left for the coast immediately after the Turkey Day battle with Pitt and did not return to practice here.

From the spirit that the players put into their workouts this week it is safe to say that the Penn State team will not be shaken in confidence in their ability to end the season with a victory and no matter what team represents the west in the Pasadena game the Lions feel that they have a good, fighting chance to win.

This feeling is not built upon over-confidence or "cockiness," but it comes largely from the belief that things must begin to break for the west soon or later. Discouragements have piled up in an unending stream all season and players and coaches alike feel that the silver lining must soon begin to show through the dark cloud. And where would they be more apt to find it, they argue, than out in sunny California?

There is another factor in the determination of the Nittany Lions to win that California game. The players have read some of the reports from the west in which Penn State is picked as door-mat for the coast selection to trample upon. According to some California enthusiasts, the Lions will hardly afford a good practice game for the west coast teams—or at least, this is the story that has reached Captain Newsham and his war-horns.

If such an opinion is held by coast fans, there may be quite a little surprise party staged at Pasadena on January 1, 1923. True enough, the Lions have not shown the power of former years but they have been too busy making for the best team in the east. Moreover, they are taking that Pasadena game very seriously and have gone about their practice this week in the most careful fashion.

In Harry Wilson, half back, and Mike Palm, quarter back, Penn State has two of the flashy backs in eastern college circles and these two stars will give California fans a high class exhibition of how the game is played. Wilson has starred in Bonick's backfield for two years and Hugo terms him the best half-back he has ever coached.

Mike Palm, the new quarterback, found himself in the Pitt game when he played sensational ball and will be a hard man for any team to stop from now on.

It is probable that Penn State will start for the coast about December 20, arriving there for Christmas, if possible. That will allow for five days of practice before the game and the coaches feel that this will enable the players to work out all the kinks in their muscles. The return trip will start right after the game and will take about six or seven days. The journey to the coast and back will dovetail very nicely with the Christmas holidays at Penn State and as a result, the players will miss only two or three days of classes.

Headell has ordered his players to report on Tuesday, Thursday and Saturday of next week. The second and third teams are wearing a bitter battle for substitute places on the trip, for the Blue and White men have announced that he will take at least twenty-two men to the coast. A number of scrubs have already been promised to assist team assignments and more changes may take place next week.

Record of having been defeated this year only by California. Prior to a Christmas Day game at Pasadena between Nebraska and the University of California apparently have failed, California having broken training entirely.

BRUINS MUST MAKE TRIP TO SOUTH TO MEET U. S. C. AGAIN

Arrangement of Football Schedule Not as Good as Could Be; New Year's Games Frowned on by Conference.

By DOUG MONTELL.

The announcement of the 1923 Pacific Coast Conference collegiate football schedule has started a storm of mingled criticism and inquiry from those who had expected certain things from the meeting at Seattle. California was expected to have a schedule next year that would make up for the lack of games on the Berkeley field during the season just closed but with the final word that the Bears had waived their rights once more next year and would take on their tough game of the year, against U. S. C., in Los Angeles, shattered the hopes of those who have to patiently await the coming of another grid season.

The whys and wherefores of the change were yet unknown. A glance at the schedule drafted by the delegates shows that the Bears have three conference games on their home turf, as many as any other institution, more than most. But even so it hardly explains why the toughest game of the year, called for at Berkeley according to the plan of alternating, should again go south.

Arrangements For Olympiad Well in Hand. Running Track Is Now Ready For Use; Housing Receiving Attention.

NEW YORK, Dec. 11.—Satisfactory progress in the preparations for holding the Olympic games at Paris in 1924 is reported in a review received by the American Olympic Commission here today. Albert Geiger Jr., chairman of the Boston A. A. athletic commission, who went abroad some weeks ago to investigate conditions from an American team standpoint, said that work on both the stadium and tracks were well advanced.

In this preliminary communication to Frederick W. Rubien, secretary of the A. O. A., Geiger stated that the main running track in the stadium had been completed and promised to be exceptionally fast by the summer of 1924. Another eighteen months of rolling and top dressing, with later settling and hardening, will, in his opinion, provide the fastest track ever prepared for Olympic games competitors, and far superior to the track at Antwerp in 1920, which was not finished until after the American team arrived.

No preliminary practice will be permitted upon the Columbus track. A special soft dirt track is being constructed inside the Olympic track and all the training work will be confined to this course in order to leave the main track in good shape for the actual competition.

In speaking of the probable running situation for the American team, Geiger expressed the opinion that the proposed system of annual visits would not prove satisfactory from an American point of view. He advised the hiring of a quiet, select family hotel within fifteen or twenty minutes ride of the stadium to be given over exclusively to the United States competitors. He cited several desirable sites both in Paris and the suburbs, especially Neuilly.

Being French athletic activities and preparations, he mentioned that the French figure and speed skaters as well as hockey players must be expected to make an excellent showing in the ice skating events which will open the eighth Olympiad at Chamonix, Switzerland, in January, 1924. Swimming is also making rapid progress in France and the new stadium of the Sporting Club of France is stated to be one of the best in the world, comparing favorably with any in the United States.

New Year's Games Are Frowned On. The unexpected action of the conference in refusing to sanction the Pasadena New Year's game means that in the future no conference game will appear in the south. It does not necessarily mean, but in the future the western representative will have to come from outside the ranks of the conference.

Gonzaga, Nevada, all the teams of the Southern California conference and a few scattered minor ones up and down the coast will be available.

Whether conference teams will actually play in the nature of inter-sectional contests after the close of the regular conference season remains to be seen. But it is taken for granted that the conference action will prevent any further games, such as the coming contest between Stanford and Pittsburgh in the future.

Stanford, being returned to good standing in the conference, will hardly care to repeat the action and unless a team of recognized standing were to be secured, under conference auspices, it is hardly likely that such a game would be worth trying.

Henderson's Squad Will Resume Work. LOS ANGELES, Dec. 11.—The University of Southern California football team will resume practice tomorrow for the game with Pennsylvania State College eleven at Pasadena New Year's day, according to a telegram from Coach "Gloomy" Gus" Henderson at Seattle, where he attended the Pacific Coast conference annual meeting.

U. S. C. is proud to represent the west in the New Year's day, especially as we have found that the conference part of the telegram, which was signed "Gloomy Gus" U. S. C. fortunate in lining up good football players for the New Year's day, however.

Blackboard talks have been given and the practice was held in the last few days under Advisory Coach Gordon C. Hard and heavy workouts will be started after Coach Henderson's return.

THE UNIVERSITY PROGRAM.

The open season is on for small politicians in various parts of the state to bair the University of California. Every two years, when the University goes before the Board of Control with its budget requests and again when the University appropriation is argued in the Legislature, these men raise the cry.

Not the same of men voice complaint with each session for the sake of the stripe who win two years of brief glory as assemblymen and fade with the new elections. They pick upon the University, which is the university of the whole state, and look for in crying for curtailment of opportunities for higher education they are attracting to themselves a favorable attention.

The State of California is behind its university. Every time it has had the opportunity to spend for its encouragement and benefit it has made that plan. When a man remarks in a budget hearing at Sacramento appropriations for the University are asked that the Board of Regents might have the fun of spending the money he admits his ignorance and displays malice. So long as the people of the state from one end to the other continue to send their sons and daughters to Berkeley for the opportunities in education which are offered there, or to Davis for the training in agricultural pursuits, so long will the University of California need appropriations every two years.

When the number of students increases it is but natural that the demand for more money is increased. It is so happens this year the University is not asking for more money at the Berkeley plant. The development of the Southern Branch and the Junior colleges has checked the too rapid growth which has marked recent years.

What is asked this year, above the appropriation of two years ago is \$975,000 additional for the College of Agriculture and an increase for the Southern Branch, \$750,000 in all. The University has had some warm friends among the agricultural assembly districts of the state but some of its bitterest opponents, two years ago came from other county districts and from the South. Last year when the budget call for an increase of 25 per cent for the Southern Branch and a \$400,000 in all for campus expansion there it will be interesting to see how the South votes. (Copyrighted by Tribune Publishing Co.)

It will be remembered the state paid for a committee to travel over the country investigating the agricultural colleges, that charges were made and its members leaving California for Oregon and other states because the equipment here was not adequate and that legislators saw the need of more money.

Any program for better improvements in the letters and sciences course until there was advanced a new program at Davis.

So soon as the plan of roll goes offered the promised result is a strong appeal to measure the heavy cost toward Berkeley, the University has followed the program asked. There is one thing new to place the college at Davis, physically, in as high a rank as it enjoys for a better work in training. The goal should be the best and noblest college in the country. Attendance at the Southern Branch justifies all that is asked there. Surely a program which calls for University expansion in the Sacramento Valley and in Los Angeles, and a continuance of the present program at Berkeley is one which should appeal to the whole state.

The time would seem to have arrived when petty bickering over the University appropriations may end and when University officials who present their programs for consideration should not be badgered and thrown upon the defensive as if they were doing something which were outside of their simple duty.

It is not a rare experience to hear comment derogatory to the honesty of enforcement officers. That can be heard about other officials, and fair-minded people are not swift to believe

such accusations. Fair-minded people are not likely to be strengthened in such faith, however, by the disclosure of an enforcement officer in San Francisco and the disclosures of his trial. They may be staggered by the desperate efforts that were made to clear him, in which members of the police force participated. It is not an inspiring incident in the enforcement of prohibition laws.

A SHIPPING OPPORTUNITY.

A development in transportation facilities which cannot fail to be reflected in the routing of additional ships from this port, the building of wharves and warehouses, and the establishment of terminals, is that of the carrying of a part of the California fruit crops by refrigerator vessels.

No less an authority than the *Manufacturers' Record* is responsible for the statement that transportation men, the country over, are giving serious consideration to this question; that it is beyond the possibility stage and is an immediate probability, and that the experiments conducted have proved successful.

The news comes at the same time as that of the improvement, by the Southern Pacific, of a great part of the Oakland western water front, and may or may not be of significance in this connection. Certain it is, however, if any large part of California's fruit crop is to be moved by refrigerator ships the Oakland harbor will be the logical outlet. The orchards and vineyards of the Sacramento, San Joaquin, and Livermore Valleys are behind Oakland. Development of water transportation between the Pacific and the Atlantic through the Panama Canal is the outstanding item for shipping consideration today. That this traffic will be multiplied by four within a short time is the prediction of the Governor of the Panama Zone who has the record of monthly increase and the plans of shippers upon which to base his prediction.

TO SAVE COSTS AND DELAY.

Study of the criminal court record in Oakland for the year suggests a saving which could be made in time and money. It is one which could be made in very county in the state and which, it is probable, will be placed before the State Legislature for consideration in January.

There were in Oakland, up to November 1, 210 informations lodged against men accused of crime. Of this number 149, more than half, paid guilty. For all of those 149, however, police court hearings were held, a court stenographer took down the transcript of evidence, witnesses testified, and a full court was in attendance. Then the men were committed to the Superior Court where they asked probation and were given it a substantial cost.

If those who are anxious to plead guilty at the time of arrest could be certified direct to the Superior Court a saving in time and money would be effected. Calendars could be cleared so much the quicker and there would be less complaint of the law's delays. At first sight, it would not appear any injustice was being worked in a plan which concerns only those men who admit their guilt. As it is the law requires the elaborate preliminary hearing which, in their cases, has no bearing on the result.

This is a subject upon which the attention of lawmakers and those interested in court procedure may well be directed. Already it has won a wide support in Alameda county where the idea originated although this is its first public announcement.

There was a tendency to deride the plan of conducting persons who have been convicted of violating speed laws through morgues where bodies of automobile victims are displayed, as a forcible reminder of what happens in such instances; but a dispatch from Chicago, where the idea originated, is to the effect that auto

It must be concluded that air navigation is becoming safer when one hundred and thirty seven airplanes were down 292,372 miles without injury to any pilot during the national airplane races at Selfridge last month. Like every other great innovation air navigation must go through a period of trial before it becomes standardized; but unlike any other, the experience is gained at the cost of lives. It is gratifying that such immunity as that shown has been attained.

Oregon is starting a campaign to call attention to the desirability of its citizens to invest in the resources of that state. Prominent place is given in the call to action to the record of growth in population of the five Pacific Coast states from 1910 to 1920, a record which, in percentages, follows: California, 44.1; Idaho, 32.6; Utah, 20.1; Washington, 18.8; Oregon, 16.4. An advertising fund of \$300,000 is the immediate remedial measure sought by those who read in these figures the cause of arrested development.

MYSTIC GROVE ON THE HILL.
Over the hills on a windy day,
and in the distance and gray;
Ever before me the brown path
trends
to the mystery of the hill,
where our light ends.

Over the hill with the waning
breath,
To the grove of eucalyptus trees,
Their crests move darkly when
wind is high
Clouds slowly cross the leaden sky.

Strange sights issue from trees that
stand
In nakedness, stripped by storm-
ing hand.
The bark, in scrolls, as papyrus
tough,
Is weathered and brown, a mummified
stuff.

Hard frosted leaves crown the naked
trees
They crackle and snap when stirred
by wind
Like ancient hags' laughter at life's
troubles,
And the grove seems alive, with
its moaning trees.

As night begins to darken the sky,
Lo! the eucalyptus sigh,
Their mystery deepens as shadows
fall
And east their weariness over all.

Why at the selfsame time and
reason
You live youth in bloom, and
withered and old
Yet the mystery of you, you will
not unfold.

THE THOUGHTS OF HERMIONE
Don't you think that the elan
vital is just simply wonderful?
We have been taking it up and
discussing it lately, my little group
of friends thinkers and I, and we
don't know what the arts could do
without it.

And, either for that matter,
Mamma doesn't think it is quite
respectable . . . but then poor
dear Mamma is so hopelessly old-
fashioned!

The way I judge of play and
work and everything is simply
this: "Does this thing have the
elan?"

And if it doesn't, it is a total
failure, so far as I am concerned.
That's one thing Evolution is
doing, don't you think? Putting
more and more of the elan vital
into things, is you get what I mean.

We are doing a great deal of
volunteer social welfare work this
year, my little group and I,
and we are trying to persuade them to live in
a better way. . . . more sanitation
and everything, if you get what I
mean.

Every time I feel a temptation to
pounce into frivolity of any sort I
take up the poor again in a serious
way.

The poor have meant a great deal
to me in the way of bringing a
proper rhythm into my life.
And without rhythm, how can
one have harmony?

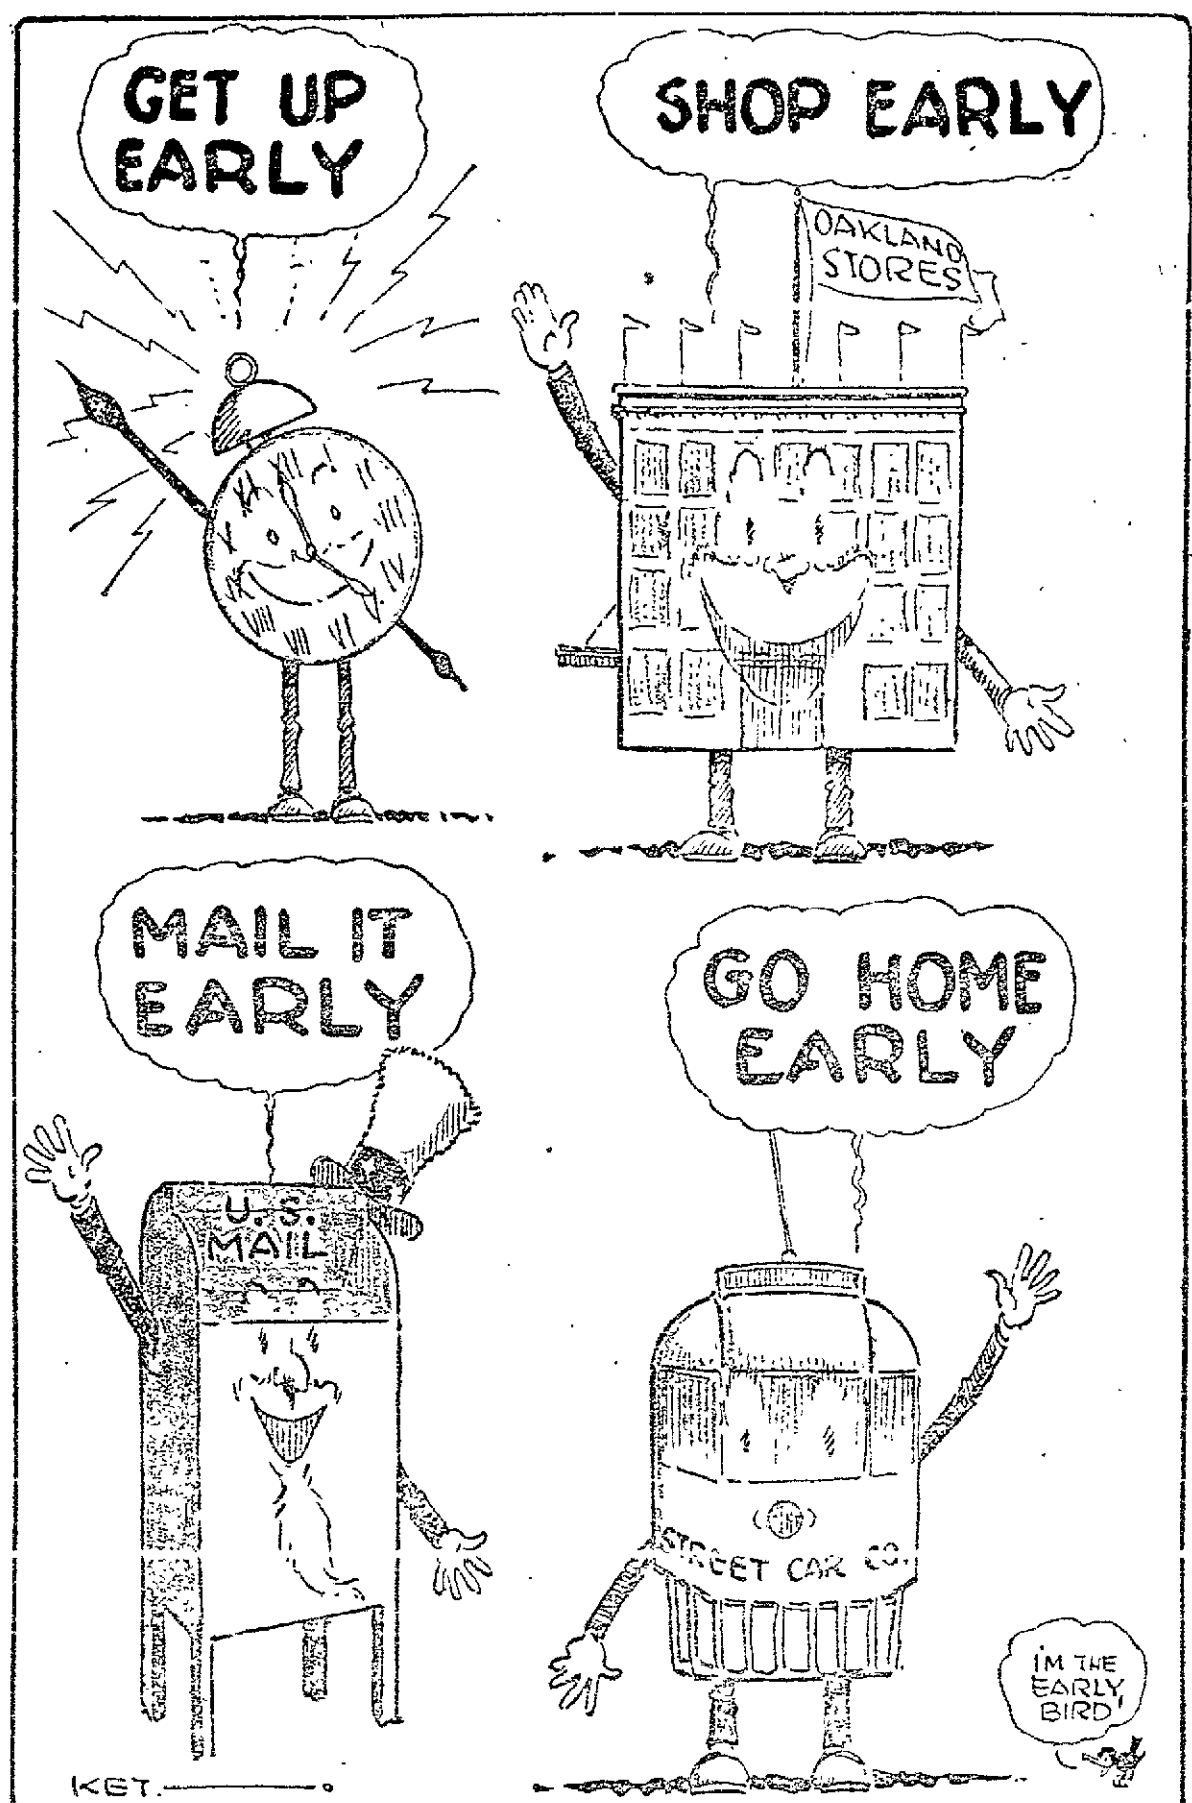

And harmony, as the dear Swami
says is all.
I must work to see that all is har-
mony, don't you think?

I am going to give a dinner next
week, at which some of us will dis-
cuss the fuel and food situation as
it will affect the poor this winter,
and I must hurry to my dress-
maker's for a fitting.

For I shall wear a gown at the
dinner itself.
Unless I have harmony, my spiri-
tual life becomes . . . well . . . inhar-
monious, if you get what I mean.
My costume must somehow sym-
bolize the purpose of the meeting.
I think one's every act and
movement should be a Symbol and
a Gesture, don't you?
O, the Cause! The Gesture!
How wonderful the Gesture can be!
Every night before I go to
bed I ask myself "Has my every
action today been a Gesture? Or
have I failed?"

SEASONAL ADVICE!

Excerpts from the National Press

Kansas City Star: "It is a series of extremely interesting biographical articles that Michael Pupin, an distinguished physicist and inventor, is contributing to Scribner's Magazine. But it must be said that Mr. Pupin is breaking the fundamental rules of the modern immigrant writers' union. He thinks the United States is a better country than his native Serbia, and that it offers far greater opportunities. He calls American civilization a beautiful daughter of a beautiful mother, which is Anglo-Saxon civilization. That is a new view. Most of the immigrants of this generation think it their duty to point out to America its serious defects."

Philadelphia Ledger: "The Turks celebrated their occupation of Adrianople with a 'dry' dinner, at which plump was perhaps substituted for combustible plum pudding, and lukoumi (almond paste) with a draft of Thracian water possibly took the place of cocktails and caviar. The banquet, moreover, was not the only evidence of spiritual abstinence. Gen. Tahlet Bey, the new governor of the town, promptly promulgated an order closing all liquor shops and bars at which alcoholic refreshment had been sold."

Christian Science Monitor: "Congratulations to Pancho Villa, erstwhile bandit and now a gentleman farmer in the State of Durango, Mexico. If the report is true that he has refused an offer by an American publishing company of \$50,000 for his memoirs on the ground that he has no desire to perpetuate the story of his adventures, but rather prefers that his children, now small herd of his father's exploits as a rancher and benefactor."

New York Herald: "When the ninety-eight-foot motor cruiser Speedicks put in at Miami Thanksgiving Day she had fulfilled the promise her owner, Albert V. Gowan, of Chicago, made for her that she would circumnavigate the globe. The Speedicks came back to the plane she started from with 55,000 miles of blue water behind her. Her tonnage is 100."

SPIRIT of the STATE PRESS

In the report of the Secretary of the Interior on the Yosemite National Park there are two points of local interest, both of which should inspire untiring effort to complete the park. One point is the need of better roads into and out of the valley, and the second the fact that Yosemite offers greater opportunities for winter sports than many European resorts—Merced Star.

The "much ado about nothing" over the burning of leaves, or the carting of them away, has arrived at the point where it is due for the silly season. What is all the talk and fuss about? What the tronics do we care about the leaves anyway? Provided for Her Cat by Will.
By a will filed in the Knox county court, Maine, last December Mrs. Fourny provided for her cat Bean as follows: "If I die before my cat Bean he is to have the best of care, allowed to sleep on the table or window sill and not left out of doors at all, and \$5 per month is for salmon, milk and meat. When he dies he is to have a white velvet made and be buried in my lot in Achorn cemetery and a small stone put up for him costing \$20." Bean had just returned from Press Herald.

New Ideas.
"Where did you get the plot for your second novel?"
"From the film version of my first."—Nashville Tennessean.

Spenglerism--

What it is
The great emerging figure in the Continent at present is Oswald Spengler. The account of his ideas is given by Thomas Mann in the December Dial.

His doctrine, briefly and roughly stated, is this: History is the life-process of vegetative and structural organisms which are known as cultures and which pass through an individual physiognomy and a limited period of existence. Up to the present eight of these cultures can be counted: Egyptian, Indian, Babylonian, Chinese, Graeco-Roman, Arabic, Occidental (our own) and the culture of the Mayas in Central America. But although alike in their general structure, and their general destiny, these cultures are strictly isolated existences, each one inseparably bound to its own laws of thinking, seeing, and experiencing, and none of them understands a word of what any of the others says or means. Only Herr Spengler understands them, conglomerately and individually, and it is a real pleasure to observe how he can speak and sing of each of them. Aside from this, as has been said, the deepest incomprehensibility reigns, and it is ludicrous to speak of any continuity in life, of that ultimate spiritual unity, that humanity, which—according to Novalis—is the star, the puer meaning of our planet, and which binds it as a member to the upper world. There is no use recalling that a single word of love—like Mahler's Lied von der Erde, which makes a complete organic, human fusion between the old Chinese lyric and the most complex phrases of modern musical development—throws overboard the whole theory of any radical estrangement between cultures. Since there is no one type of mankind—according to Spengler—there is also no one system of mathematics, or painting, or physics; but there are as many systems of mathematics, paintings and physics as there are cultures. . . . And they are all fundamentally different things. Except that, once again, Herr Spengler is graced with the intuition for understanding them. . . . Each culture, he says, runs through the life-cycle of an individual man. Born out of a maternal landscape, it blossoms, ripens, wiles, and dies. It dies after it has completely lived out its character, after it has exhausted all the picturesque possibilities of expression contained in its nature, such as actions, religions, literatures, arts, sciences, and forms of government. The age of each culture—marking the transition to annihilation, to the death of torpor, to an existence without history—we term "civilization." But since each period in a culture's age corresponds to a similar period in all other cultures, we term a first of all a new and amusing concept of "contemporaneity," but in the second place this signifies for the initiate an astral, an certainty concerning the character of the future. For instance, it is quite certain what is in store for our own culture, the Occidental, which passed into the old age of civilization at the beginning of the nineteenth century and whose immediate future will be "contemporary" with the century of the Roman golden age. It is certain astronomically, biologically, morphologically. It is frightfully certain. And if there is anything more frightful than this destiny, then it is the man who bears it without raising a finger in protest.

AGED WOMAN ATTACKED IN HALLWAY

Mrs. Katherine Mills Unable to Describe Assailants Who Gave Her Beating in the Darkness While Alone

The police today are trying to solve the mystery of an attack made upon Mrs. Katherine Mills, 67 years old, in the upstairs hallway of her home, 656 Fourteenth street, Saturday night, by two persons whose faces she was unable to see because of the darkness.

Neither of the attackers uttered a word, except unintelligible mutterings, or gave any indication of motive, according to Mrs. Mills.

The aged woman was seized by two persons as she was returning along the dark hallway to her room after answering a telephone call from a friend, according to her story. After beating her about the face with their fists, they dragged her downstairs and then half way up again, according to Mrs. Mills, whereupon they left her lying there and departed.

NO REASON APPARENT

Neither Mrs. Mills nor friends of the aged woman could give any reason today for the attack. No money was taken and Mrs. Mills said she was not aware that she had any enemies.

One theory advanced by Mrs. Mills was that she may have been mistaken in the dark for one of the roomers in her house, against whom the attackers may have been seeking revenge. The police are investigating this angle of the case.

The police are also looking for a woman who, according to Mrs. Mills, made three attempts lately to obtain a room in the house and was refused. Mrs. Mills said today that the woman had become angry upon her later visits and had refused to accept the explanation that there were no vacant rooms in the house.

LATE IN CALLING AID

Mrs. Mills was alone in the house at the time of the attack, except for one of her lodgers, Mrs. Vera Lantz, who was asleep in her own room and was not awakened. After dragging herself to her room, Mrs. Mills was unable to summon aid until late yesterday afternoon. She said she believed one of her attackers was a woman, because of the manner of shaking her.

"It was just as a woman would have done," she said today. "I don't believe a man would have shaken me in that particular way."

Mrs. Mills has no near relatives living.

183 FAMILIES IN NEED FOUND BY BERKELEY BUREAU

BERKELEY, Dec. 11.—There are 183 families, 17 blind persons and 33 aged in Berkeley who will not know the meaning of Christmas unless residents of the college city fill the role of Santa Claus.

An appeal for assistance in making the Yuletide season happy for everyone was issued today by the Christmas Bureau, organized several years ago as a "holier clearing house" and of which Mrs. William B. Gester is chairman. The bureau lists all persons whom Santa may otherwise overlook and tries to get to it that one person is not left out.

The committee, besides Mrs. Gester, consists of Mrs. F. L. Lipman, Mrs. Harry H. Coxhead, Mrs. C. L. Switzer and Mrs. J. Koughan. Following is the appeal of the members:

"The work of the Berkeley Christmas Bureau has commenced. Letters have been sent to clubs, churches, schools and individuals when four or five different persons all choose the same family on which to bestow their kindly attention, there is duplication and wasted effort, and a corresponding number of families may have to go without. A clearing house is organized for the purpose of avoiding such errors and it is hoped that every one will make use of it."

"There are 183 families, 17 blind persons and 33 aged already reported, and no doubt there will be others. It will take the generous support of all Berkeleys to give them 'A Merry Christmas.' Then we must see that the 90 committed children who are wards of this society are not forgotten. If you cannot provide dinner for a family, the Christmas Bureau will be glad to accept funds and expend them where needed."

"There will be six or eight children in the Emergency Home. We want this to be their happiest Christmas with stockings and a tree, a turkey dinner and everything. A photograph is greatly needed for the Home, also children's books and games."

"The Christmas spirit prompts us all to do something for others. Phone Berkeley 8434 and let the Christmas Bureau know what you will do."

MOTHER, ILL, ATTEMPTS TO END HER LIFE

Mrs. Jeannette Duffy Fires Shot Into Breast as Baby Sleeps; Wants to Live, But Doctors Say Chance Small

While her three months' old baby lay sleeping on a bed in the room, Mrs. Jeannette Duffy, 22 years old, of 3176 Outubert avenue, today took her husband's pistol from a bureau drawer, placed the muzzle against her body and pulled the trigger.

She is at the county hospital, suffering from a bullet wound just beneath the left breast. Surgeons say she has practically no chance for recovery.

"Oh, why did I do it? Why did I do it?" Mrs. Duffy sobbed on her cot at the hospital. "My baby and husband need me. I must have been insane."

Duffy, who is employed at a local branch of a tire and rubber company, stood at her bedside with tears streaming from her eyes.

Detectives who interviewed the husband, relatives and neighbors in an attempt to establish a motive for the attempted suicide declared that Mrs. Duffy has been in ill health for some time and recently had been despondent.

Her husband and relatives believe that today, when she came across the pistol, the suicidal impulse seized her.

The shot was heard by Mrs. Clarence Rouch, who ran into the room to find Mrs. Duffy on the floor in a pool of blood. She notified the police and the woman was taken to the hospital. The bullet lodged near the heart, the doctors say.

HORSES, WAGON STOLEN FROM IN FRONT OF STORE

A wagon and two horses were today reported stolen by E. A. Fischer, a driver for the Drayage Service Corporation, at Fourth and Castro streets. Fischer left his wagon while he went into the Oakland Furniture Company at Thirteenth and Clay streets to deliver a package. When he came out the team was missing. He told Captain of Inspectors Richard McSorley that he was in the store about five minutes. A newsboy told the police that he saw a man drive the team away.

Commerce Chamber Plans For Election

Three judges and seventeen tellers have been appointed to take charge of the election of officers of the Chamber of Commerce. These men already have placed ballot boxes in the Chamber of Commerce rooms which will remain locked until Wednesday evening at 7 o'clock, when the polls close.

The election is for the purpose of selecting seven directors. The seven, together with the fourteen hold-over directors, will meet at the latter part of the week to elect a new president and other officials of the chamber.

The judges are A. Vander Nall, C. E. Kegan and Ralph Seelye. The tellers are Harold Austin, G. A. Cardinet, Hugh P. Evans, H. O. Fisher, J. E. Gray, J. P. Greenwood, Harry W. Jones, James Sandifer, Frank Stewart, Charles P. Lutz, George E. Nelson, P. L. Baumgartner, Woodson Ross, A. H. Schaaf, Zook Sutton, E. E. Thornton and Howard Baxter.

Masonic Temple To Be Enlarged

BERKELEY, Dec. 11.—The Berkeley Masonic Temple, Bancroft way and Shattuck avenue, is to be enlarged. Purchase of a lot adjoining the temple on Bancroft way has been announced by the Masonic Temple Association and plans for an addition to the present building are expected to be completed shortly. The land acquired by the association has a frontage of 50 feet on Bancroft way and a depth of 125 feet. It was purchased from G. Candeville. The

Stand Reversed on Railroad Unmerger

REDWOOD CITY, Dec. 11.—The chamber of commerce of this city, which went on record several months ago as in favor of divorcing the Southern and Central Pacific railroads, has rescinded this action and declared its belief that the roads should be combined in unified operation. A telegram to this effect was sent to the Interstate Commerce Commission at Washington, asking that the unmerger be prevented by the commission, under powers granted to it by the Transportation Act of 1920.

"The Redwood City Chamber of Commerce," the resolution declared, "desires to co-operate with the business interests of California."

Last Rites Said For Berkeleyn

BERKELEY, Dec. 11.—Last rites were said today at local undertaking parlors for William F. Heine, 61, who has more than 15 years had charge of a morning paper route in South Berkeley. Heine passed away Saturday at his home at 1500 Franklin street. He is survived by a widow, Mrs. Alvina Heine, and the following children: Mrs. Frank Kohnen, William F. Heine Jr., O. E. Rain Predicted Tomorrow; Snow For Tamalpais

Unusually Low Temperatures Due in North and Central Portions of State.

No cessation of rain throughout the state and unusually low temperatures with moderate northerly winds for today and tomorrow. The rainfall for the past 48 hours, measured at Chabot this morning at 7 o'clock, was 1.34 inches. That this part of the state is receiving its full quota of beneficial precipitation is demonstrated by the fact that the seasonal fall to date is 5.94 inches, as compared with 5.53 inches for normal.

The storm which caused the rains in California now over the upper Missouri Valley. The fall of the storm is responsible for the present storm showers in California and the snow in Nevada.

It is announced by the U. S. Weather Bureau that probably the summit of Mount Tamalpais will be covered with snow tomorrow. It is said that unusually low temperatures will prevail, except in Southern California. A cold wave is now being experienced in Eastern Washington, Northern Idaho and Montana.

C. OF C. MEN TO HOLD EXCURSION

Inaugurating a series of local "get-around" excursions, members of the Onward Oakland Club of the Oakland Chamber of Commerce will go to Alameda in San Francisco tomorrow evening. A dinner is to be served, and an excellent musical and vocal group has been provided. Among those who will talk are: H. C. Capwell, a director of the Oakland Chamber; David D. Oliphant Jr., president of the Onward Oakland Club; Captain W. D. Southwick, of the Onward Oakland Club; and George Donald, an Alameda merchant.

The Alameda people propose to make this a family party. They believe that they belong to the rapidly growing Oakland family and are anxious to take an active part in the upbuilding of the city.

The Technical High School Band will join the Onward Oakland Club in the advance on Alameda and will have a part in the program as will the Alameda Dramatic Club and an Alameda orchestra.

This meeting is to be followed by others in other Oakland communities in the coming year.

Merchants to Attend Cabaret Dinner

BERKELEY, Dec. 11.—A special cabaret dinner will be given for merchants of the coldest city next Friday evening at the Hotel White cotton. The dinner is planned by the Berkeley Downtown Business Association. Speakers will be Joseph M. Cumming, executive secretary of the San Francisco Downtown Association and Mrs. Ellnor Carlisle, a director of the Berkeley Chamber of Commerce. Jos. Mills, local banker, is arranging a cabaret program, while Herbert S. Jones is chairman of the club's committee on arrangements. President George L. Schneider of the association, and Secretary Earl Sinclair are co-operating in the plans.

Codornices Club to Hold Yuletide Jinks

BERKELEY, Dec. 11.—Burlap costumes on plays and entertainments given during the year, original songs and dances, and some "surprise" acts will provide the program for the Christmas Jinks of the Codornices Club tomorrow evening. No women will take part in any of the acts. The jinks will be held in the club building at 1600 Broadway and 12th streets and will be open to the public.

Among those who are to take part are: Emil Greb, Gilbert P. Sully, Glenn Vessels, P. A. Hutchins, Max Horwinski, C. A. Dunlap, R. E. Whittier, George F. Taylor, R. E. Whittier, H. H. Bossert, H. H. Friedlander, Robert Kerr, Arthur Weiss, and others.

Camp Guardians Find Oakland 'Lonesome' Town

Sierra Residents Go Back to Their Mountain Home For Winter.

After a lonesome week in Oakland, Charlie Christensen and Billy Beyers, custodians of the municipal camp in the Sierras, departed this morning for their home at South Fork, where they will spend the winter in the company of their dogs, plus a few deer and perhaps a grizzly bear or two.

Charlie says he "will never come down again," if he can help it.

"It's too lonesome down here," says Charlie. "I meet a lot of friends, sure, but after that there's no place to go and nothing to do except amuse, which hurt my eyes. I'm going to stay at camp after this."

Young Billy Beyers, who trudges about 5 miles to school at Buck Meadows every morning, asserts that "there's too much people down here, and they're packed too close together."

Charlie and Billy came down to attend the reunion of the Oakland municipal camp guests, about a week ago, at the auditorium. They return to camp via the Hetch-Hetchy railroad, which was still open at last accounts.

\$37,000 IS SET ASIDE FOR WORK

Appropriations Are Made By Council For Expenditures in Oakland's Public Works and Legal Departments

More than \$37,000 was appropriated this morning by the city council in ordinances passed to print for various expenditures in the public works and legal departments.

For operation of the pile-driver and dredge, \$25,000 was appropriated. For building a one-story brick fire-engine house at Thirteenth and Alameda, \$12,000 was set aside, and the legal expenses at the court hearings concerning the opening of Fifteenth street, \$31,000 was set aside.

The council, by resolution, appropriated \$20,000 for the expense of city officials who will go to Sacramento tomorrow for another go at the State Motor Vehicle department funds. The city of Oakland wants a portion of licenses and fines collected in Oakland.

The soft drink license of M. Perry at 753 Twenty-third avenue, was cancelled for alleged violations of the Volstead law.

JAPAN IMPORTS FERTILIZER.

TOKYO, Dec. 11.—Besides enormous quantities manufactured here, nearly three million tons of fertilizer valued at approximately 17,000,000 yen, are imported into Japan yearly. Bean cake heads the list, more than a million tons being brought in every year.

INDUSTRIAL DEATH RATE IS REDUCED

From 1914 to 1921 Inclusive Rate of Fatal Accidents Among State Workers Is Lowered 38.39 Per Cent

A further reduction in the number of industrial deaths in California is shown in the 1921 report of the State Industrial Accident Commission. In 1920, 592 deaths occurred in the industries of the state, and this had been reduced to 550 for 1921.

The statistics just published by the commission are cheering from every point of view. It is demonstrated that for the years 1914 to 1921, inclusive, there has been a reduction of 38.39 per cent in the industrial death rate of California.

The commission likewise reports a reduction in permanent and temporary injuries of workers.

The record also shows that of the 550 deaths last year, 114 were caused by varied classifications, 98 by railroad, vessel and stevedoring operations because of construction, 78 by manufacturing, 71 by public utilities, 55 by mining, quarrying and oil producing, 45 by agriculture.

The report states that 5 women were killed while at work. The average age of the workers killed was 33 years.

PLACEMENT BUREAU URGED.

Discussing the case of the injured workers to whom compensation was paid in 1921 to the amount of \$7,245,321, the commission urges the establishment of a placement bureau. The report states in this regard:

"In the opinion of the Commission, the need for a placement bureau has become urgent, both as a medium of assisting in recovery in some cases and in providing needed work in those instances where it is necessary to change occupation because of permanent injuries. Pioneer work in this connection has been done by some employers and insurance carriers. The assistance of employers is all important in this part of compensation service. The injured employee, left to his own resources, finds his handicap seemingly insurmountable. He sorely needs advice and material help. Both should be furnished by the state, in co-operation with employers and insurance companies."

CARE WIDOWS, CHILDREN.

The report also deals at length with one of the most important phases of the Commission's work, the care of widows and children left dependent as the result of industrial deaths.

"The survey during the fiscal year shows a general lowering of the standard of living, health and wellbeing," the report says, "and the statement is exceedingly conservative that it would seem that the Workmen's Compensation, Insurance and Safety Act of this state is not quite meeting its responsibility."

The Commission recommends that "the size and composition of such family should be considered in each death award. The economic rehabilitation of a family can not be accomplished during the four and one-half years during which compensation is paid under the present law." The Commission has 355 dependency records in its files. It has helped widows and children to re-establish themselves, has provided medical and dental care, and has given out vocational information.

The Commission has also given its attention to such matters as safety measures for the oil fields, for the lumber and shipbuilding industries, for elevators and electrical plants.

UNUSUAL OLD-TIME PHOTOGRAPH—It was taken in 1867, and shows one of the ferry-boats in the Oakland harbor, just arriving from San Francisco. At first glance it does not look much different from similar scenes of today, but on looking closer it is noticeable that the boat is of much less massive build than the modern ferry steamers.

SHAKING HANDS AFTER THE BATTLE—Eddie Kaw, captain of the Cornell football team, is shown shaking hands with Pos Miller, captain of the Penn team. In one of the most exciting games ever seen on the gridiron, Cornell beat Pennsylvania, by a score of 9-0, at Franklin field, Philadelphia. Captain Kaw played his last game for his Alma Mater, and he was the hero of the team. The Quakers were coached to watch Kaw, and they did much to their sorrow, for the Cornell captain was acting as a decoy, and the strategy worked to perfection.

"A PRINCE THERE WAS," but he's in exile now. Photo shows Prince Andreas of Greece, and his wife, who was Princess Alice of Battenburg. He is a brother of the twice deposed Tino. During the Turkish war he commanded an army corps. He was tried for disobeying superiors' orders and was exiled.

THREE STARS IN CONJUNCTION—They are Mary Pickford, Lillian Gish and Dorothy Gish, movie luminaries, all. Miss Pickford is seen directing Lillian and Dorothy Gish on board the S. S. "Providence" prior to Lillian Gish's departure for Italy, where she is to film F. Marion Crawford's novel, "The White Sister." Miss Pickford and the Gishes have been intimate friends for years.

NO, IT'S NOT A NEW STYLE—Mac Busch, here shown, is wearing a wig and scarf, as one of her costumes in the role of Glory Quavle in Goldwyn's production of "The Christian." This is the costume worn during the actress epoch of Glory's eventful career.

IS ACCUSED BY BRITISH JOURNALIST—Mrs. Marguerite Harrison, of Baltimore, Md., a newspaperwoman, has been accused by Mrs. Stan Harding, a British journalist, of having caused her arrest and imprisonment by the Soviet authorities for five months. Mrs. Harding has appealed to Miss Anne Martin of Nevada, former candidate for U. S. Senator, for aid in obtaining redress from the American government. Mrs. Harding alleges that when Mrs. Harrison was arrested in Russia on charges of espionage she purchased her release by consenting to act as a spy for the Bolsheviks; and that she then informed the Soviet authorities that Mrs. Harding was a British spy.

FROM RUSS' ORTHODOX CHURCH TO BAPTIST—Here is Serge Trufanoff, better known as the "Mad Monk Ilidor," who arrived recently in New York with his wife and three children. Sergius, aged 7; Hope, aged 5; and Ilidor, aged 4. The youngest is a native of America, having been born here on his parents' first visit in 1913. During that visit "Monk Ilidor" became interested in the Baptist church and on his return to Russia he attempted to change the Orthodox church in accordance with Baptist ideals. This failed and he now plans to become an American citizen and a Baptist preacher.

ALONG THE AVENUE OF NATIONS—This photo, taken at the Brazilian Centennial Exposition, shows U. S. Marines passing the U. S. Government building on Nevada (Battleship) way, Wednesday, November 6, 1920.

Tongue Twisters (To Be Read Aloud) By C. L. EDSON

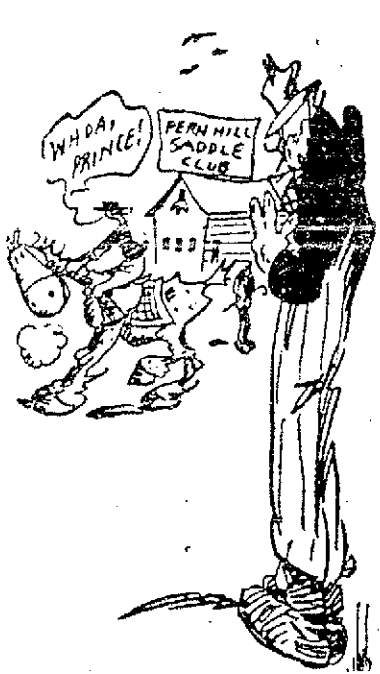

GALLOWAY FROM WALLA Galloway! Galloway! And of Miss Willa Wye. Really, when Galloway saw her a mile away. Nothing could rattle the Galloway smile away. Charmed by the billowy, willowy, Willa Wye. Silly Al Galloway stopped in the alley way. And, in his callow way, stared at Miss Willa Wye.

Bill O. A. Pulley, a pal of Al Galloway, Almost pushed Galloway out of the alley way. In his brusque Pulley way (Which was no callow way), Bill O. A. beckoned the willowy Willa Wye.

Willa Wye took to it. Bill O. A. Pulley way, That was the way to win the willowy Willa Wye. He gazed at Bill O. A. throwing the bull away. Not so Miss Willa Wye. She fell for Bill O. A. She forgot Galloway, she took his pal away. Now they are wed, and live out Walla Walla way.

MARRIED MEN ARE BARRED IN WORLD AIR TRIP

Sir Keith Smith, British Ace,
Tells Why Flyers Must
Not Marry.

BERKELEY, Dec. 11.—Cupid will have no part in the "round-the-world" flight which has been started by Sir Keith Smith, British ace. Stopping in Berkeley yesterday en route to London from Australia, where he made arrangements for supplies of gas preparatory to continuing his flight, Sir Keith made this announcement: "No married men, he declares, will be taken with him when he hops off from Australia next spring. Because one of the mechanics who accompanied him on the first day of his trip from London to Australia has since been married he has been barred from continuing the journey, says the visiting Britisher.

"Men in love don't make good aviators; besides there is always the anxiety concerning their wives at home," comments the flyer. "That's why I have not married, and why I will not take any married men with me."

VISITS "THE HANGAR"

Sir Keith declared what he had made arrangements with a California oil company to supply necessary supplies to out-of-the-way places in Australia, China and Japan preparatory to his flight. Arriving in San Francisco Saturday from Australia he delayed his return to London a day in order that he might pay a visit to "The Hangar," the home of Mrs. C. A. Tusch, 2211 Union street, where more famous flyers have visited than probably at any other place in the world. Sir Keith spent his time next to Captain Eddie Rickenbacker on the wall of the Tusch living room, which is filled with photographs of flyers and other mementoes of the aviation craze.

Sir Keith was met in Berkeley by a reception committee, consisting of Harvey Pugh, president of the local Flyers Club, which arranged for his reception; James K. Fisk, president of Berkeley Post No. 7, American Legion; Alvin Hambly, H. W. Clark and A. M. Stewart, all of the Flyers Club and the latter two British fliers.

HOME MADE FAMOUS.

Sir Keith declared "The Hangar" to be the most interesting place of its kind he had ever visited. It is the plan of Mrs. Tusch to present her home and its contents to the city of Berkeley at some future date. Known as "Michael Tusch," Mrs. Tusch played an active part in war activities in Berkeley. Sir Keith left his suite in London to secure flying equipment for the second lap of his world flight. His brother, who accompanied him on his first trip, was killed recently while testing out a new engine. He promised to stop in Berkeley when he finished his tour, and supplement his signature yesterday, which was that of "Sir Keith Smith, from London to Australia," with "Sir Keith Smith, around the world by air."

Highland Hospital Changes Approved

On the recommendation of Henry Meyers, county architect, the Board of Supervisors today approved changes in the construction of wards 1 and 2 of the new Highland Hospital which entail a saving of \$113,73. The Clinton Construction Company, builders, were directed to conform to the change in plans.

A report from the Alameda County Development Commission shows that 19,701 illustrated pamphlets, setting forth the merits of this county, were dispatched throughout the state and to foreign countries during the month of November. In addition about 1500 more were mailed to eastern points the report states.

Forgery Suspect To Be Brought Back

Captain of Inspectors Richard G. Smith and Detective Walter Smith, who were on duty at the Alameda County Jail, today were directed to bring back to the county jail a man who had been arrested on a charge of forgery. The complaint was sworn to by B. J. Anderson, 1638 Seventh street, who charged a check for \$100, which, it is alleged, was forged. He will be brought back here tomorrow.

BERKELEY RED CROSS ROLL CALL BRINGS \$3000

BERKELEY, Dec. 11.—Although all reports have not been received, the sixth annual roll call of the Berkeley Red Cross raised approximately \$3000 in the college city for the coming year.

This announcement has been made by Mrs. G. M. Stratton, roll call director, who states that while the city fell \$1000 short of the quota set, that the sum raised has pleased Red Cross officials in Berkeley.

Announcement of the result follows the annual dinner of the Berkeley chapter held last week at Town and Green clubhouse, with more than 150 persons present. The dinner was marked by the election of officers and reports for the year. Professor H. B. Langille, who is active in the work for vocational students at the University of California, is the new president chosen for the coming year.

Richard R. Bell was named as vice-chairman. Mrs. John House secretary, and Jo S. Mills, treasurer.

Directors are as follows: T. D. Beckwith, R. E. Bell, Mrs. R. A. Berry, Mrs. John House, Rev. J. T. Brennan, Mrs. John U. Collins, Mrs. Mary B. Claves, John L. Claver, Mrs. Charles C. Coffin, Mrs. V. Sick Soldiers to Get Christmas Cheer

Mrs. Beatrice Coggins of San Francisco, State superintendent of the work among soldiers and sailors for the Woman's Christian Temperance Union of California, is preparing 500 Christmas boxes to be distributed at the Monterey Presidio, and the Marine Hospital and Letterman General Hospital in San Francisco.

Each box is to contain fruit, candy, nuts, raisins, a gift, and two postals, one a Christmas greeting to the boy receiving the box and the other a card addressed to the sender of the box for the recipient to use if he wishes.

On Christmas eve two wards in Letterman Hospital will have trees and programs prepared by Mrs. Coggins and her helpers, and on Saturday afternoon gifts will be taken to the Marine Hospital for the men in three of the wards there.

GADSKI CONCERT STIRS TROUBLE IN LOS ANGELES

LOS ANGELES, Dec. 11.—Madame Gadski, diva, arrived last night from San Francisco and it was said by friends "only physical force" could prevent her from appearing in concert here tonight.

Members and hosts of the American Legion and other organizations have asked the board of police commissioners to bar her from the concert stage here because of alleged pro-German sympathies during the world war and because her appearance might result in a "demonstration."

It was indicated by the singer's friends that if the board ruled against her she planned to sue the city.

It was predicted last night representatives of the Merchants and Manufacturers Association, the Better Business Bureau and the California Music Trades Association would appear before the board today in opposition to the legion and its supporters.

Madame Gadski is said to have been informed by counsel there is no legal reason to bar her concert and that she is entitled to police protection.

The board has been notified by the city attorney it has the right to instruct the chief of police to "take steps to prevent a riot by prohibiting any event which seriously would provoke a demonstration."

BAKE HOMES SEND CALLS FOR AID TO GOODFELLOWS

Little Ones Write Tribune of
Needs At Holiday
Time.

The Christmas hum is on. Everyone is busy with the thoughts and problems of Christmas in relation to his family, relatives and best friends. Some there are, indeed, and the number is growing daily, who have paused to think of those not quite so fortunate as they and have made some little contribution of time, money and service to bring a little sunshine into clouded homes.

Goodfellows who have not made their yearly bid for aid for part of a family to care for at

Christmas time will surely not delay longer. The time is getting nearly short for the work to be done to alleviate the distress in the large number of homes which have applied to the Blue Bird for succor and a chance to enjoy in a small measure the Yuletide spirit.

The general fund is easily depleted by purchases that have already been made in preparation to filling the large order that has been placed on the Blue Bird. If you would help in the work and in your contribution to the Blue Bird or bring it to the custodian of the fund in the office of The TRIBUNE.

In the following letter a father pleads for his mother's care for his seven motherless children.

"To THE TRIBUNE and some Goodfellow to tell them that on street there is a man that lost his wife about a year ago and has seven children. The oldest is leaving home. She is 13 years old and they will have to go to Christmas if somebody don't care."

"Dear Blue Bird: Could you be kind enough to send something for Christmas as my father ran away from home. We can not get along very well. We would prechat it very much and my shoes got holes in them. When I came home the afternoon I took my shoes and my father would give me a new pair. I have good shoes or clothes. We hope you send us something, please."

Berkeley—"Just a few lines to tell you that my father is dead long time ago and I am going to have a poor Christmas. If some Goodfellow would bring us some-

thing, anything, we would be glad. My mother can't fit us nothing. Maybe some one would have something to spare. Dear Blue Bird, don't forget us."

"Dear Goodfellow: My father was killed in the war and mama is getting such small wages that mama will not be able to get us anything for Christmas. There are three of us. I am the oldest. I am 16 years old. My sisters are 10 and 12 years old. Will you try and get us a little dinner for Christmas?"

MAHLE IN CITY HALL SHATTERED BY SHOT CHARGE

Careless Gunner Blasts Costly
Piece of Stone in
Corridor.

As the result of indoor gunnery at the city hall Saturday night, the department of public works is seeking the gunner who smashed up a perfectly good marble flagstone, but it is believed that the marksman is now far away.

According to Executive Secretary Ralph York of the public works department, it happened this way: A bone-head carrying a shotgun—in the words of Ralph York—decided that Saturday night was as good a time to load his shotgun as any other time. The thought struck him, apparently, while he was passing through the city hall corridors. Just why he had the shotgun, or why he wanted to load it at that particular time, is unknown.

At any rate, according to York, the man put the muzzle of his gun against the expensive marble floor and loaded the shotgun with buckshot. Incidentally, he had chosen the most expensive chunk of marble in the building. Evidence shows that he then "closed" the gun, but it went off.

The expensive marble was shattered to bits. The explosion brought a rush of patrolmen from the nearby police headquarters. The shotgun expert fled. And that's the end of it.

"But why didn't he shoot up a cheap piece of marble?" laments York.

SCHOOL MOVIES DECLARED SAFE AFTER PROTEST

All school movies are now operated according to law and in conformity with the regulation which private movies shall be enclosed in fire-proof boxes, lessening the danger of explosion or conflagration.

This was asserted today by Battalion Chief F. J. Sandy as a result of a tour of inspection, searching for movies not operated according to law. Melrose Heights school, which was listed among those failing to comply with the regulations, long ago received a clean bill of health from the fire department, and was indignant at being classed among the "illit movies." This, however, is now straightened out, according to Sandy, and the other schools have complied with the ordinances.

"But we're still watching for these movies that are not properly enclosed," says Sandy. "The owner of a private motion picture machine using combustible films must get a license and must enclose that movie."

FOX TROT IS FEATURE

Friends of Miss Margaret Masers and Gus Andrade gave a dance in their honor last night at Maple hall. One of the features of the program was an interpretation of the fox trot by Miss Masers and Andrade.
